Lou Lichtl, assistant principal, Westlake High School, introduced Frank Marino, head coach for the Girls' Varsity Soccer team. Jo-Ann Yoos, principal, Thousand Oaks High School, introduced Richard Andres, head coach for the Boys' Varsity Basketball Team. Mrs. Yoos commended Mr. Andres for having been honored as the Ventura County Coach of the Year.

Dr. Gross reported that: 1) he spent an evening last week with a Westlake Hills Elementary parent group talking about their interest in considering school uniforms. The parents feel that uniforms would ease the pressure students feel they are under to wear certain clothing. Note of interest: the courts have ruled it legal to require uniforms as long as there is an opt out process. 2) during a presentation to a Conejo Elementary School parent groups, Dr. Gross discussed effective communication between the school, teachers, and parents. It was concluded that the most important thing to remember regarding effective communication is to respect the other person's opinion and at all times remain courteous. 3) Board members and senior leadership staff have been meeting for the past two days with a representative from the National Blue Ribbon office at University Elementary School. The visitation was concluded Tuesday and we now await the final word from the U.S. Office of Education. Dr. Gross and Board members commended University staff and parents, and our M&O department, for the exceptional job they did to prepare University for the Blue Ribbon visit. 4) the Principal for Half-Day Program and wrap-up luncheon at Dole Foods was informative and successful. He thanked the principals and business leaders who participated. 5) he wished to commend the County Health Department and staff at Los Cerritos Middle School for their quick response to handling the meningitis alert at Los Cerritos. Symptoms to watch for are flu-like and parents who see such signs should contact their physician immediately. 6) we have received positive responses regarding the District's new Hot Line (805-497-9591) which is available 24 hours. Posters will be distributed for every secondary classroom and high traffic areas at each school. 7) we received word today from the State Department that our District will receive \$1.4 million in staff bonuses and block grants as a result of the excellent API testing scores.

**SUPT.
REMARKS**

Mr. Jim Martin, principal, Conejo Valley and Century High School, presented information about the schools and explained the differences between regular high schools and continuation schools, and between Conejo Valley and Century High Schools. The continuation schools offer total individualized instruction within small classrooms. Students attend the continuation school for any of four reasons: low on credits, attendance problems, transferred due to disciplinary action or by choice. The greatest percentage of students attends to make up credits and the lowest percentage attends as the result of a disciplinary action. The schools now have Internet access in each classroom, offer concurrent enrollment at other schools including Moorpark College, have a Career Path program, and are anxious to publish their new student-prepared yearbook. Mr. Martin commented on the school's recent WASC visitation, which was extremely positive.

REPORTS

Tina Grumney spoke in support of Sycamore Canyon School. She has been in contact with Dr. Chasse, principal, to help form a corps of volunteers parents and joined the PTA. Ms. Grumney mentioned that the first parent meeting held by Dr. Chasse was excellent and very informative.

**PUBLIC
CONCERNS**

Cheryl Heitmann spoke as the District Advisory Committee Chairperson (DAC). She stated that at the March 20, 2001 meeting, it was moved that our District lengthen the middle school periods to equal the high school periods until such time as class size reduction would be academically and fiscally possible. The motion was seconded. After discussion, the motion was amended to read: 1) DAC is unanimously opposed to extending the school year to 210 days; 2) DAC recommends that districts be given flexibility in implementing programs to meet the Governor's goal of academic excellence in middle schools; and 3) DAC recommends that our District lengthen the middle school periods to equal the high school periods until such time as class size reduction would be academically and fiscally possible. The motion was seconded and passed as amended. Another motion was that the Executive Board writes a letter to convey the motion that was just approved and send it to the Governor and appropriate Legislature representatives. The motion was seconded and

approved. The Board recommended that individual letters be written to representatives as the impact would be greater.

Motion carried 5-0. A.R. #1 filed.

**AMEND
POLICY 501**

Mrs. Didio moved that due to lack of funds and lack of work, the Board of Education finds that it is in the best interest of the School District to direct the Superintendent to commence implementing procedures to reduce the Instructional Assistant/Visually Handicapped as requested, effective April 30, 2001 and the Instructional Assistant/Special Education positions as requested, effective June 30, 2001. Mr. Mortimer pointed out that since school district accounting is so specialized, there are very few companies that respond. Mrs. Phelps commented that she appreciated the work of the auditors who did help the District in several areas in the audit. Mrs. Didio stated that we also conduct our own internal audits, and by doing so, have implemented several improvements in the system. INFORMATION

INFO.

The Board received information regarding Sycamore Canyon School: Future Site of K-5, 6-8 Programs. Mrs. Didio commented that she felt the need to change the report from an Action item to an Information item so that everyone would have advanced notice about the report, and if needed, time for discussion would be available. She mentioned that in the past there had never been enough acreage to propose a K-5, 6-8 configuration, and now there is. Mrs. Del Campo stated that this collaboration was an example of the Park District, the School District and the City of Thousand Oaks working together to solve a problem to the benefit of the entire community.
