Principal

Dr. Mark W. McLaughlin
Superintendent

Welcome Parents!

We wanted to say hello and introduce ourselves. We look forward to serving as Newbury Park High's SEDAC reps for the 2022-23 school year. SEDAC is the Special Education District Advisory Council that works closely with the Conejo Valley Unified School District in discussing matters related to special education services and supports for students with an IEP or 504 plan. SEDAC encourages the sharing of needs, accomplishments, and activities in order to support a high-quality program for special education students.

As your SEDAC reps, we are here to learn more about what is important to you. Our hope is to be a supporting voice for our kids throughout the school year. We look forward to sharing SEDAC news with you and NPHS's School Site Council. You can also access are important information related to SEDAC on our school website under the parent tab.

For SEDAC to work well, we need to open lines of communication. We hope that you will join the conversation and share your questions, concerns and thoughts. You are welcome to email us or attend the monthly SEDAC and School Site Council meetings. Please refer to the NPHS website for meeting times and agendas.
