CAL GRANT PROGRAMS

EC §69432.9 & CVUSD Administrative Regulation 5125

A Cal Grant is money for college that does not have to be paid back. To qualify, a student must meet the eligibility and financial requirements as well as any minimum grade point average (GPA) requirements. Cal Grants can be used at any University of California, California State University or California Community College. Some independent and career colleges or technical schools in California also take Cal Grants.

In order to assist students applying for financial aid, all students in grade 12 are automatically considered a Cal Grant applicant and each grade 12 student's GPA will be submitted by the October 1 deadline to the California Student Aid Commission (CASAC) electronically by a school or school district official. A student, or the parent/guardian of a student under 18 years of age, may complete a form to indicate that they do not wish for the school to electronically send CASAC the student's GPA. Notification regarding CASAC and the opportunity to opt out of being automatically deemed a Cal Grant applicant will be provided to all 11th grade students and their parents or guardians by February 1, 2025.

Until a student turns 18 years of age, only the parent/guardian may opt out the student. Once a student turns 18 years of age, only the student may opt himself/herself out, and can opt in if the parent/guardian had previously decided to opt out the student.

CALIFORNIA HEALTHY YOUTH ACT (GRADES 7-12)

EC §51930 - §51939,
CVUSD Board Policy 6142.1 & CVUSD Administrative Regulation 6142.1

The Governing Board desires to provide well-planned, integrated sequences of medically accurate and inclusive instruction on comprehensive sexual health and human immunodeficiency virus (HIV) prevention. The district's educational program shall address the goals of the California Healthy Youth Act pursuant to Education Code §51930 - §51939, including providing students with the knowledge and skills necessary to protect them from risks presented by sexually transmitted infections and unintended pregnancy, sexual harassment, sexual assault, sexual abuse, and human trafficking, and to have healthy, positive, and safe relationships and behaviors. The district's educational programs shall also promote students' understanding of sexuality as a normal part of human development and the development of healthy attitudes and behaviors concerning adolescent growth and development, body image, gender, gender identity, gender expression, sexual orientation, relationships, marriage, and family.

Comprehensive sexual health education and HIV prevention education shall be offered to all students in grades 7-12, at least once in middle school and at least once in high school.

5. This instruction shall emphasize that successfully treated HIV-positive individuals have a normal life expectancy, all people are at some risk of contracting HIV, and that testing is the only way to know if one is HIV-positive.
6. Information about local resources, how to access local resources, and students' legal rights to access local resources for sexual and reproductive health care such as testing and medical care for HIV and other sexually transmitted infections and pregnancy prevention and care, as well as local resources for assistance with sexual assault and intimate partner/dating violence

The student will receive an alternative assignment. This Annual Notification shall be considered notice to parents/guardians.

CALIFORNIA PROFICIENCY PROGRAM (CPP) EXAMINATION

EC §48412,
CVUSD Board Policy 6146.2 & CVUSD Administrative Regulation 6146.2

The California Proficiency Program (CPP) Examination has replaced the California High School Proficiency Exam (CHSPE) established by California Education Code Section 48412. The CPP utilizes the State Board of Education approved GED® or HiSET® subtests for language arts and mathematics to measure proficiency. Eligible pupils who pass the CPP are awarded a California Certificate of Proficiency by the State Board of Education. A pupil who receives a Certificate of Proficiency may, with verified approval from the parent or legal guardian, leave high school early. The Certificate of Proficiency is equivalent to a high school diploma; however, it is not equivalent to completing all coursework required for regular graduation from high school. Once a student has taken the CPP, passed both language arts and mathematics subtests and exited high school, they may choose to take the remaining HiSET-Equivalency subtests in science and social studies to earn their California High School Equivalency Certificate, opening even more doors than the Certificate of Proficiency alone. Pupils planning to continue his or her studies in a college or university should contact the admissions office of the institution to find out if the Certificate of Proficiency will meet admission requirements.

A pupil is eligible to take the CPP only if he or she meets at least one criteria in each of the following requirements:

- Students must meet one of the following:
 - 16 years of age or older, or
 - Enrolled in grade 10 for one school year or longer, or
 - Will complete one school year of enrollment in grade 10 at the end of the semester during which the next regular examination will be conducted.
- Students must also be currently subject to California's compulsory education laws pursuant to EC Section §48200, which may be evidenced by one of the following:
 - Current enrollment in a California K-12 public high school; or
 - Current enrollment in a private school (Registered by filing a private school affidavit with the California Department of Education pursuant to EC §33190 and includes but is not limited to students at registered private schools operated by their parents to homeschool their children pursuant to EC §48222.); or
 - Current work permit issued by the Department of Industrial Relations Division to a student currently working in California; provided that the student is either receiving tutoring pursuant to EC §48224 or enrolled in an independent study program under EC §51745, to accommodate the student's work schedule.

For more information on the CPP, please visit CDE's website located at <https://www.cde.ca.gov/ta/tg/cp.asp>.

CAREER COUNSELING AND COURSE SELECTION

EC §221.5(d) & CVUSD Board Policy 6164.2

Parents or legal guardians are notified so that they may participate in such counseling sessions and decisions.

PREGNANT AND PARENTING PUPILS

EC §221.51, EC §222.5, EC §46015, EC §482 - §485, EC §48980, 5 CCR 4950, 34 CFR 106.40 & CVUSD Board Policy 5146

The Governing Board recognizes that responsibilities related to marriage, pregnancy, or parenting and related responsibilities may disrupt a student's education and increase the chance of a student dropping out of school. The Board therefore desires to support married, pregnant, and parenting students to continue their education, attain strong academic and parenting skills, and promote the healthy development of their children.

The district shall not exclude or deny any student from any educational program or activity, including any class or extracurricular activity, solely on the basis of the student's pregnancy, childbirth, false pregnancy, termination of pregnancy, or related recovery. In addition, the district shall not adopt any rule concerning a student's actual or potential parental, family, or marital status that treats students differently on the basis of sex.

Note: The following paragraph was added to BP 5146 based on findings from the California Department of Education Federal Program Monitoring review of Conejo Valley Unified School District's policies and practices in the 2022/2023 school year.

The District shall apply no rule concerning a pupil's actual or potential parental, family, or marital status that treats pupils differently on the basis of sex. The District shall not make a pre-admission inquiry as to the marital status of an applicant for admission. The District may make a pre-admission inquiry as to the sex of an applicant for admission, but only if such inquiry is made equally of all student applicants and if the results of such inquiry are not used in connection with discrimination prohibited by Title IX.

The Superintendent or designee shall annually notify parents/guardians at the beginning of the school year of the rights and options available to pregnant and parenting students under the law. In addition, pregnant and parenting students shall be notified of the rights and options available to them under the law through annual school year welcome packets and through independent study packets.

For school-related purposes, a student under the age of 18 years who enters into a valid marriage shall have all the rights and privileges of students who are 18 years old, even if the marriage has been dissolved.

Education and Support Services for Pregnant and Parenting Students

Pregnant and parenting students shall retain the right to participate in the regular education program or an alternative education program. The classroom setting shall be the preferred instructional strategy unless an alternative is necessary to meet the needs of the student and/or the student's child.

Any alternative education program, activity, or course that is offered separately to pregnant or parenting students, including any class or extracurricular activity, shall be equal to that offered to other district students. A student's participation in such programs shall be voluntary.

If required for students with any other temporary disabling condition, the Superintendent or designee may require a student, based on pregnancy, childbirth, false pregnancy, termination of pregnancy, or related recovery, to obtain certification from a physician or nurse practitioner indicating that the student is physically and emotionally able to continue participation in the regular education program or activity.

To the extent feasible, the district shall provide educational and related support services, either directly or in collaboration with community agencies and organizations, to meet the needs of pregnant and parenting students and their children. Such services may include, but are not limited to:

1. Childcare and development services for the children of parenting students on or near school site(s) during the school day and during school-sponsored activities
2. Parenting education and life skills instruction

3. Special school nutrition supplements for pregnant and lactating students pursuant to Education Code §49553, 42 USC 1786, and 7 CFR 246.1-246.28
4. Health care services, including prenatal care
5. Tobacco, alcohol, and/or drug prevention and intervention services
6. Academic and personal counseling, including, but not limited to, assistance with meeting A-G requirements
7. Supplemental instruction to assist students in achieving grade-level academic standards and progressing toward graduation

As appropriate, teachers, administrators, and/or other personnel who work with pregnant and parenting students shall receive related professional development.

Absences

Pregnant or parenting students may be excused for absences for medical appointments and other purposes specified in BP/AR 5113 - Absences and Excuses.

A student shall be excused for absences to care for a sick child for whom the student is the custodial parent. A note from a physician shall not be required for such an absence.

Parental Leave

A pregnant or parenting student shall be entitled to eight weeks of parental leave in order to protect the health of the student who gives or expects to give birth and to allow the pregnant or parenting student to care for and bond with the infant. Such leave may be taken before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction. The Superintendent or designee may grant parental leave beyond eight weeks if deemed medically necessary by the student's physician.

The student, if age 18 years or older, or the student's parent/guardian shall notify the school of the student's intent to take parental leave. No student shall be required to take all or part of the parental leave.

When a student takes parental leave, the attendance supervisor shall ensure that absences from the regular school program are excused until the student is able to return to the regular school program or an alternative education program. A pregnant or parenting student shall not be required to complete academic work or other school requirements during the period of the parental leave.

Following the leave, a pregnant or parenting student may elect to return to the school and the course of study in which the student was enrolled before taking parental leave or to an alternative education option provided by the district. Upon return to school, a pregnant or parenting student shall have opportunities to make up work missed during the leave, including, but not limited to, makeup work plans and reenrollment in courses.

When necessary to complete high school graduation requirements, the student may remain enrolled in school for a fifth year of instruction, unless the Superintendent or designee makes a finding that the student is reasonably able to complete district graduation requirements in time to graduate by the end of the fourth year of high school.

Accommodations

When necessary, the district shall provide accommodations to enable a pregnant or parenting students to access the educational program.

A pregnant student shall have access to any services available to other students with temporary disabilities or medical conditions.

The school shall provide reasonable accommodations to any lactating student to express breast milk, breastfeed an infant child, or address other needs related to breastfeeding. A student shall not incur an academic penalty for using any of these reasonable accommodations and shall be provided the opportunity to make up any work missed due to such use. Reasonable accommodations include, but are not limited to:

1. Access to a private and secure room, other than a restroom, to express breast milk or breastfeed an infant child

2. Permission to bring onto a school campus a breast pump and any other equipment used to express breast milk
3. Access to a power source for a breast pump or any other equipment used to express breast milk
4. Access to a place to store expressed breast milk safely

SPECIAL EDUCATION

EC §56306, EC §56329, EC §56380, EC §56506, EC §56345(a)(8), IDEA & CAC 3125

Special Education Programs

Federal law requires that a free and appropriate education (FAPE) shall be offered in the least restrictive environment (LRE) to qualified pupils with disabilities, including those who are homeless or wards of the court, ages 3 through 21 years; and early intervention services for “at-risk infants and toddlers” under the age of 3. This right applies to students eligible for Special Education services as defined under the Individuals with Disabilities Education Act (IDEA).

Through the district’s Student Success Team (“SST”) process, and other procedures (implementation and monitoring of interventions; consideration of a student’s education records), including the processing of referrals from the community, a continuous effort is made to locate and identify individuals who might qualify for special education services. Although the district may consider and attempt general education interventions prior to referring a student for special education evaluation or services. It may not unduly delay a necessary referral to first attempt general education interventions. Upon suspecting that a student has a disability and may need special education and related services, district staff will immediately refer the student for consideration of eligibility.

The law also provides that parents may initiate a request to have their child assessed to determine eligibility for Special Education and/or related services. The request shall be in writing and may be submitted to the District’s Special Education Office, school principal or their designee. Further, the parent(s) 1) may expect their rights to be written in understandable language; 2) will be asked to give written consent before any assessments are conducted; 3) is entitled to receive a copy of the assessment results and the documentation of determination of eligibility upon request; 4) shall participate in the individualized education program (IEP) team meeting for their child and be provided with recommendations and the reasons for them; and 5) will give written consent prior to the student receiving services. The parent also has the right to electronically record the proceedings of IEP meetings and to observe the pupil in the classroom, as specified by board policy.

The district’s process for identifying and evaluating students with disabilities who may be in need of special education and related services includes, but is not limited to, a review of the student’s school records; effectiveness of general education and/or SST interventions, as applicable; information provided by a student’s teacher(s), other professionals, and the parent/guardian, as appropriate; and consideration of the student’s needs.

If the pupil is identified as eligible for special education and related services, then a meeting will be held annually to review their progress. Further and more specific information about parent rights, due process, specific procedures, and the

assessment plan are available under a separate document, which may be obtained from the District's Department of Special Education.

Special Education Students Reaching Age 18

Beginning at least one year prior to a special education pupil reaching the age of 18, they are to be informed of their rights, which will be transferred to them upon reaching the age of 18. This information is also contained within the individualized education program (IEP).

Special Education Complaints

The parent may file a complaint with the State Department of Public Instruction if they feel there has been a violation of the Special Education Laws. The complaint may be filed with Shanda Lee, Director of Special Education Preschool/Elementary, or Dawn Thomas, Director of Special Education Secondary at (805) 497-9511 Ext. 3330.

Students may continue to use while at distributing school and for up to a maximum of two months or until a replacement or comparable device is obtained in new setting. Not every IEP will have an AT device as part of the IEP team offering, but if it is there, it must remain in possession so that the student does not have a lapse in educational access to such device.

Child Find Systems

The district is a member of the Ventura County Special Education Local Plan Area which has established written policies and procedures including continuous child find systems including children with disabilities who are migrant, homeless, or wards of the state, and children with disabilities attending private schools. Policies and procedures include written notification to all parents of their rights regarding identification, referral, assessment, instructional planning, implementation, review, and procedures for initiating referral for assessment.

ATTENDANCE

ABSENCES FOR CONFIDENTIAL MEDICAL SERVICES

EC §46010.1

"Commencing in the fall of the 1986–87 academic year, the governing board of each school district shall, each academic year, notify pupils in grades 7 to 12, inclusive, and the parents or guardians of all pupils enrolled in the district, that school authorities may excuse any pupil from the school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardian."

AVOIDING ABSENCES, EXCUSED ABSENCES, TARDINESS, TRUANCY

EC §46014, EC §48205, EC §48260, EC §48260(a), EC §48262, EC §48263, EC §48263.6, EC §48264, EC §48267, EC §48268, EC §48269, EC §60901; WIC 236, 601, 601.3, 651.5, 653.5, 654; CVUSD Board Policy 5113 & CVUSD Administrative Regulation 5113

Avoiding Absences

The Conejo Valley Unified School District urges parents to make sure their children attend school regularly and to schedule medical and other appointments after school or during school holidays. The district also asks that travel or other absences be avoided during the time school is in session. The higher the district's daily attendance rate, the more a student will learn and the greater the amount of funding that the district will receive from the state for classroom instruction and academic programs.

The school calendar is designed to minimize problems for families which plan vacations around traditional holiday periods, and thereby minimize student absences. Following an absence, a student is required to bring a written excuse from home when returning to school. Illnesses, and doctor and dental appointments are considered excused absences. Absences without a written excuse are recorded as unexcused.

Chronic Absenteeism

EC §60901

A student is considered a chronic absentee when they are absent on 10% or more of the school days in one school year, from the date of enrollment to the current date. Chronic absenteeism includes all absences – excused and unexcused – and is an important measure because excessive absences negatively impact academic achievement and student engagement.

Excused Absences

EC §46014, EC §48205

Parents or legal guardians, unless exempted, are required to enroll their children between the ages of 6 and 18 in the school district in which they reside. They are compelled to ensure that the minor is in school regularly and on time each day. Parents may be requested to appear before the School Attendance Review Board (SARB) and subsequently be referred to the District Attorney for legal action when attendance, tardiness, and/or behavior problems occur. For additional information regarding truancy, review the attendance section on the District's website located at www.conejousd.org.

Notwithstanding Section 48200, a pupil shall be excused from school for any of the following reasons:

1. Personal illness, including absence for the benefit of the student's mental or behavioral health
2. Quarantine under the direction of a county or city health officer
3. Medical, dental, optometrical, or chiropractic appointment
4. Attendance at funeral services or grieving the death of either a member of the pupil's immediate family, or of a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, so long as the absence is not more than five days per incident.
5. Jury duty in the manner provided by law
6. Illness or medical appointment of a child to whom the student is the custodial parent
7. Upon advance written request by the parent/guardian and the approval of the principal or designee, justifiable personal reasons, including but not limited to:

9. To spend time with an immediate family member who is an active duty member of the uniformed services, as defined in Education Code 49701, and has been called to duty for deployment to a combat zone or a combat support position or is on leave from or has immediately returned from such deployment

Such absence shall be granted for a period of time to be determined at the discretion of the Superintendent or designee

10. Attendance at the student's naturalization ceremony to become a United States citizen
11. Participation in a cultural ceremony or event which relates to the habits, practices, beliefs, and traditions of a certain group of people
12. For a middle school or high school student, engagement in a civic or political event, provided that the student notifies the school ahead of the absence. Unless otherwise permitted by the Superintendent or designee, students shall be limited to one such school day-long absence per school year.
13. Participation in religious exercises or to receive moral and religious instruction at the student's place of worship or other suitable place away from school property as designated by the religious group, church, or denomination.
Absence for student participation in religious exercises or instruction shall not be considered an absence for the purpose of computing average daily attendance if the student attends at least the minimum school day as specified in AR 6112 – School Day, and is not excused from school for this purpose on more than four days per school month.
14. Work in the entertainment or allied industry.
Work for a student who holds a work permit authorizing work in the entertainment or allied industries for a period of not more than five consecutive days. For this purpose, student absence shall be excused for a maximum of up to five absences per school year.
15. Participation with a nonprofit performing arts organization in a performance for a public school audience
A student may be excused for up to five such absences per school year provided that the student's parent/guardian provides a written explanation of such absence to the school
16. Other reasons authorized at the discretion of the principal or designee based on the student's specific circumstances

For the purpose of the absences described above, immediate family means the student's parent/guardian, brother or sister, grandparent, or any other relative living in the student's household.

A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefor. The teacher of the class from which a pupil is absent shall determine which tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the pupil missed during the absence.

Truant

Any pupil subject to compulsory full-time education or to compulsory continuation education who is absent from school without valid excuse for three full days in one school year, or tardy or absent for more than any 30-minute period during the school day without a valid excuse on more than three days in one school year, or any combination thereof, and a concerted effort has been made to meet with the family, is a truant and shall be reported to the attendance supervisor. The pupil shall also be referred immediately to the School Attendance Review Board (SARB).

Tardiness

EC §48260(a)

Children should be encouraged to be prompt as part of developing good habits. They are expected to be at school on time. If a child is late, the child should bring an excuse from home to the school office. Repeated tardies in excess of 30 minutes without a valid excuse may lead to the student being designated as truant.

Truancy Definitions / Truant Consequences / Arrest of Truants

EC §48260, EC §48262, EC §48263, EC §48263.6, EC §48264, EC §48267, EC §48268, EC §48269; WIC 236, 601, 601.3, 651.5, 653.5, 654

Truancy Definitions: A student is considered truant when they are absent from school for three full days or is absent from school (tardy or left early) for more than 30 minutes during the school day and the absence or tardy is without a valid excuse. After a student has been reported as a truant three or more times in a school year and the district has made a conscientious effort to meet with the family, the student is considered a habitual truant. A student who is absent from school without a valid excuse for 10% or more of the schooldays in one school year, from the date of enrollment to the current date, is considered a chronic truant. Unexcused absences are all absences that do not fall within EC §48205 (listed above).

Truant Consequences: Any student who is identified as "Truant" may be assigned as a ward of the court, if the available community resources do not resolve the student's continued problem of truancy, by a Probation Officer or Deputy District attorney.

Arrest of Truants/School Attendance Review Boards: The school attendance supervisor, administrator or designee, a peace officer, or probation officer may arrest or assume temporary custody during school hours, of any minor who is found away from their home and who is absent from school without valid excuse within the county, city or school district. A student who is a habitual truant may be referred to a School Attendance and Review Board (SARB).

INDEPENDENT STUDY

EC §51744, EC §51745, EC §51745.5, EC §51746, EC §56026 & CVUSD Board Policy 6158

The Governing Board authorizes independent study as an optional alternative instructional strategy for students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan to serve students who desire a more

challenging educational experience, whose health or other personal circumstances make classroom attendance difficult, who are unable to access course(s) due to scheduling problems, and/or who need to make up credits or fill gaps in their learning. As necessary to meet student needs, independent study may be offered on a full-time basis or on a part-time basis in conjunction with part- or full-time classroom study.

The Superintendent or designee may provide a variety of independent study opportunities, including, but not limited to, through a program or class within a comprehensive school, an alternative school or program of choice, a charter school, and an online course.

A student's participation in independent study shall be voluntary.

Independent study for each student shall be under the general supervision of a district employee who possesses a valid certification document pursuant to Education Code §44865 or an emergency credential pursuant to Education Code §44300. Students' independent study shall be coordinated, evaluated, and documented, as prescribed by law and reflected in the accompanying administrative regulation.

The minimum period of time for any independent study option shall be three consecutive school days.

For more information on how the Conejo Valley Unified School District offers independent study options, please contact your school site principal or review Board Policy 6158 at www.conejousd.org.

OPEN CAMPUS PRIVILEGES FOR HIGH SCHOOL STUDENTS

EC §44808.5,

CVUSD Board Policy 5112.5 & CVUSD Administrative Regulation 5112.5

Students in grades 11 and 12 may be granted approval for a lunch permit to leave campus during the student's lunch period. This is considered a privilege to be earned through satisfactory citizenship, academic standing, and attendance. Neither the school district nor any officer or employee thereof shall be liable for the conduct or safety of any pupil during such time as the pupil has left the school grounds.

ENROLLMENT

ATTENDANCE OPTIONS

EC §48490(h), EC §48200, EC §48204(b)(1), EC §48204.2, EC§ 48300, EC§ 46600, EC§ 48980(m), EC §48929; USC Title 20 §7912, CVUSD Board Policies 5111.1, 5116, 5116.1, 5117 & CVUSD Administrative Regulation 5111.1, 5116, 5116.1 & 5117

Interdistrict Enrollment/Transfer Requests

Parents/guardians of students living outside the boundary of Conejo Valley Unified School District may apply for an Interdistrict Transfer. The parent or legal guardian of a pupil may seek release from the home district to attend a school in any other school district. It is expected that pupils will attend the school district serving the attendance zone in which they reside. However, Districts may enter into an agreement for a period of up to six years which specifies the terms and conditions under which pupil transfers are permitted. Therefore, the parent or guardian may request and the Superintendent may grant the transfer of their child to a different school district for any of the following reasons:

1. To meet the child care needs of the student only as long as the student's child care provider remains within district boundaries
2. To meet the student's special mental or physical health needs as certified by a physician, school psychologist, or other appropriate school personnel
3. When the student has a sibling attending school in the receiving district, to avoid splitting the family's attendance
4. To allow the student to complete a school year when their parents/guardians have moved out of the district during that year
5. To allow the student to remain with a class graduating that year from an elementary, middle, or senior high school
6. To allow a high school senior to attend the same school they attended as a junior, even if their family moved out of the district during the junior year
7. When the parent/guardian provides written evidence that the family will be moving into the district in the immediate future and would like the student to start the year in the district
8. When the student will be living out of the district for one year or less
9. When recommended by the school attendance review board or by county child welfare, probation, or social service agency staff in documented cases of serious home or community problems which make it inadvisable for the student to attend the school of residence
10. When there is valid interest in a particular educational program not offered in the district of residence
11. To provide a change in school environment for reasons of personal and social adjustment

The parent will be notified of the acceptance or rejection of the transfer request in writing. The permit, if granted, is valid for up to five years (except less when changing between school levels, i.e., elementary to middle and middle to high school); while the conditions stated are maintained; and as long as the pupil's attendance, behavior and academic performance are satisfactory to the school of attendance. Thus, the parent/guardian will not have to reapply for an interdistrict transfer and the pupil will be allowed to continue to attend the school in which they are enrolled. Pupils who are entering grade 11 or 12 in the subsequent school year shall not have their permits rescinded. Failure to adhere to the terms/conditions set forth may result in a revocation of the permit anytime while the permit is still in effect.

Priority for interdistrict attendance shall be given to a student who has been determined, through an investigation by either the district of residence or district of proposed enrollment, to be a victim of an act of bullying, as defined in Education Code §48900(r), committed by a student of the district of residence.

Until the district is at maximum capacity, the district shall accept any student whose interdistrict transfer application is based on being the victim of an act of bullying or a child of an active duty military parent/guardian. The district shall ensure that such students are admitted through an unbiased process that prohibits an inquiry into or evaluation or consideration of whether or not a student should be enrolled based on academic or athletic performance, physical condition, proficiency in English, family income, or any of the individual characteristics set forth in Education Code §220, including, but not limited to, race or ethnicity, gender, gender identity, gender expression, and immigration status.

Requests are based on District enrollment and impacted programs. Preferences will be given to pupils whose parents are enlisted in the military. Parents/guardians should contact the District's Student Support Services Department at (805) 497-9511 Ext. 3320 for further information.

Intradistrict Enrollment/Transfer Requests

It is expected that students will attend the school serving the attendance zone in which they reside. However, parents/guardians residing in the district may apply for a different school within the district through the District School of Choice process. School of Choice application requests are based on enrollment and staffing ratios. Parents of high school athletes should check on CIF sports eligibility rules before pursuing open enrollment. Transportation to any other school is the responsibility of the parent. Contact the school office for further information.

Involuntary Transfer

A student may be transferred to another district school if they are convicted of a violent felony, as defined in Penal Code 667.5(c), or a misdemeanor listed in Penal Code 29805 and is enrolled at the same school as the victim of the crime for which they were convicted.

Before transferring such a student, the Superintendent or designee shall attempt to resolve the conflict using restorative justice, counseling, or other such services. They shall also notify the student and their parents/guardians of the right to request a meeting with the principal or designee.

Participation of the victim in any conflict resolution program shall be voluntary, and they shall not be subjected to any disciplinary action for their refusal to participate in conflict resolution.

The Board shall deliberate in closed session to maintain the confidentiality of student information, unless the parent/guardian or adult student submits a written request that the matter be addressed in open session and doing so would not violate the privacy rights of any other student. The Board's decision shall be final.

Persistently Dangerous Schools

The Conejo Valley USD Governing Board has adopted a policy stating that students who attend a persistently dangerous school must be allowed to attend a safe public school.

Residency Requirements

A minor between the ages of 6 and 18 years is subject to compulsory education and, unless exempted, must enroll in school in the school district in which the residence of either the parent or legal guardian is located. Parents may enroll their student in school regardless of immigration status. School officials are prohibited from collecting information or documents regarding citizenship or immigration status of students or their family members.

A pupil may alternatively comply with the residency requirements for school attendance in a school district if he or she is any of the following: placed in a foster home or licensed children's institution within the boundaries of the school district pursuant to a commitment of placement under the Welfare and Institutions Code; a pupil who is a foster child who remains in their school of origin; an emancipated pupil who resides within the boundaries of the school district; a pupil who lives in the home of a caregiving adult that is located within the boundaries of the school district; or a pupil residing in a state hospital located within the boundaries of the school district.

A school district shall accept applications by electronic means for enrollment, including enrollment in a specific school or program within the school district, and course registration for military dependents. The parent shall provide proof of residence within 10 days after the published arrival date provided on official documentation related to their military move: temporary on-base billeting facility, purchased or leased home or apartment, or federal government or public-private venture off-base military housing.

A school district may also deem a pupil as having complied with the residency requirements for school attendance in the school district if one or both of the parents or legal guardians of the pupil are physically employed within the boundaries of the school district for a minimum of 10 hours during the school week. To consider a student for acceptance under this provision, the parent/guardian must follow the District's procedures which include the completion of the required request form and verification of employment within the district's boundaries. The request may be granted if space is available at the school nearest the location of employment and excess costs to educate the child will not be incurred.

Residency is established when a pupil's parent or legal guardian resides outside of the boundaries of that school district but is employed and lives with the pupil at the place of their employment within the boundaries of the school district for a minimum of three days during the school week.

Residency Investigations

When the Superintendent or designee reasonably believes that a student's parent/guardian has provided false or unreliable evidence of residency, they may make reasonable efforts to determine that the student meets district residency requirements. An investigation may be initiated when the Superintendent or

designee is able to identify specific, articulable facts supporting the belief that the parent/guardian has provided false or unreliable evidence of residency.

The Superintendent or designee may assign a trained district employee to conduct the investigation. The investigation may include the examination of records, including public records, and/or interviews of persons who may have knowledge of the student's residency.

If necessary, the Superintendent or designee may employ the services of a private investigator to conduct the investigation. Before hiring a private investigator, the Superintendent or designee shall make other reasonable efforts to determine whether the student resides in the district.

The investigation shall not include the surreptitious collection of photographic or videographic images of persons or places subject to the investigation. However, the use of technology is not prohibited if done in open and public view.

Any employee or contractor engaged in the investigation shall truthfully identify himself/herself as an investigator to individuals contacted or interviewed during the course of the investigation.

INSTRUCTION FOR PUPILS WITH A TEMPORARY DISABILITY

EC §48206.3, EC §48207, EC §48208 & CVUSD Administrative Regulation 6183

A pupil with a temporary disability which makes attendance in the regular day classes or the alternative educational program in which the pupil is enrolled impossible or inadvisable may receive individualized instruction provided in the pupil's home for one hour a day. Please contact your elementary principal, middle school Dean of Student Support Services, high school Assistant Principal of Attendance and Student Welfare, or the Director of Student Support Services with any questions.

A pupil with a temporary disability, who is in a hospital or other residential health facility, excluding a state hospital, may be deemed to have complied with the residency requirements for school attendance in the school district in which the hospital is located.

It is the responsibility of the parent or guardian to notify the school district in which the hospital or other residential health facility is located of the presence of a pupil with a temporary disability. Upon receipt of the notification, the district will within five working days determine whether the pupil will be able to receive individualized instruction and, if so, provide the instruction within five working days or less.

NOTICE OF ALTERNATIVE SCHOOLS

EC §58501, CVUSD Board Policy 6158, 6181 & CVUSD Administrative Regulation 6158, 6181

California state law authorizes all school districts to provide for alternative schools. Education Code §58500 defines alternative school as a school or separate class group within a school which is operated in a manner designed to:

- Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.
- Recognize that the best learning takes place when the student learns because of their desire to learn.
- Maintain a learning situation maximizing student self-motivation and encouraging the student in their own time to follow their own interests. These interests may be conceived by them totally and independently or may result in whole or in part from a presentation by their teachers or choices of learning projects.
- Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
- Maximize the opportunity for students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the administrative office of this district and the principal's office in each school have copies of the law available for your information.

VICTIM OF VIOLENT CRIME

USC Title 20 §7912a & CVUSD Board Policy 5116.1

A student who becomes a victim of a violent criminal offense while in or on the grounds of a school that the student attends has the right to transfer to another school within the district. The district has 14 calendar days to offer students the option to transfer. For more information, please contact the school principal or the District's Student Support Services Department at (805) 497-9511 Ext. 3320.

HEALTH

ADMINISTRATION OF MEDICINE DURING THE SCHOOL DAY

EC §49423, EC §49423.1 & EC §49480, CVUSD Board Policy 5141.21 & CVUSD Administrative Regulation 5141.21

The parent or legal guardian of any pupil taking medication on a regular basis must inform the school nurse or other designated personnel of the medication being taken, the current dosage, and the name of the supervising physician. With the consent of the parent or legal guardian, the school nurse may communicate with

the physician and may counsel with the school personnel regarding the possible effects of the medication on the pupil.

Administration of Prescribed Medication for Pupils

Any pupil who is required to take, during the regular school day, medication prescribed by a physician or surgeon, may be assisted by the school nurse or other designated school personnel or may carry and self-administer auto-injectable epinephrine or inhaled asthma medication if the school district receives both a written statement of instructions from the physician detailing the method, amount and time schedules by which such medication is to be taken and a written statement from the parent or guardian requesting the school district assist the pupil with prescribed medication as set forth in the physician statement.

Emergency Treatment for Anaphylaxis

Anaphylaxis is a severe and potentially life-threatening allergic reaction that can occur after encountering an allergic trigger, such as food, medicine, an insect bite, latex or exercise. Symptoms include narrowing of the airways, rashes or hives, nausea or vomiting, a weak pulse and dizziness. It is estimated that approximately 25% of the anaphylactic reactions occur during school hours to students who had not previously been diagnosed with a food or other allergy. Without immediate administration of epinephrine followed by calling emergency medical services, death can occur. Being able to recognize and treat it quickly can save lives. Recent changes to EC §49414 now require school districts to provide epinephrine auto-injectors to school nurses and trained personnel and authorizes them to use epinephrine auto-injectors for any student who may be experiencing anaphylaxis, regardless of known history.

ANNUAL HEALTH SCREENINGS

EC §49452, EC §49452.5, CVUSD Board Policy 5141.3 & CVUSD Administrative Regulation 5141.3

Annual vision and hearing screenings are conducted in kindergarten, second, fifth, and eighth grade. Annual scoliosis screenings may be performed for seventh grade females and eighth grade males. Parent teacher referrals or students receiving special education services may be included in these screenings as required by law unless the parent/guardian files a written objection. Notification will be sent to the parent/guardian of a student for any noted condition discovered through the screenings.

CALIFORNIA HEALTHY KIDS SURVEY (CHKS)

EC §51513 & EC §51938(c)

Students in grades 7, 9, or 11 are asked to be part of the California Healthy Kids Survey (CHKS) sponsored by the California Department of Education (CDE). This is a very important survey that will help promote better health and well-being among our youth, improve the school learning environment and combat problems such as drug abuse and violence. Students do not have to take the survey. If a parent does not want their child to complete the survey, the parent must notify the student's school. The survey gathers information on developmental supports provided to youth; school connectedness, and barriers to learning; school safety; health-related concerns such as physical activity and nutritional habits; alcohol, tobacco, and other drug use; risk of depression and suicide; and protected class identifiers such as sexual orientation and gender identity.

Parents may examine the questionnaire in the student's school office or on the district website. The results from this survey are compiled into district- and county-level CHKS Reports. To view a copy of the Conejo Valley Unified School District's report, go to <https://calschls.org/reports-data/search-lea-reports/> (Outside Source) and type in the district name.

Students who participate do not have to answer any questions they do not want to answer and may stop taking the survey at any time. A parent who does not want their child to participate at all must notify the student's principal in writing.

No names are recorded or attached to the survey forms or data. The results will be made available for analysis only under strict confidentiality controls. The survey will be administered during class time.

There are no known risks of physical harm to students. In rare instances, some discomfort might be experienced from the questions. The school's counseling services will be available to answer any personal questions that may materialize.

The survey was developed for the CDE by WestEd, a public, non-profit educational institution. Any questions about the survey or parent rights you have any questions about the survey or about your rights, should be directed to the school principal.

CANCER PREVENTION ACT

EC §48980.4; HSC §120336

The California Health and Safety Code recommends that pupils are fully immunized against human papillomavirus (HPV) before admission or advancement to the eighth grade level of any private or public elementary or secondary school.

CONFIDENTIALITY OF MEDICAL INFORMATION ACT

CC 56.10

School linked service coordinators will have access to health care information which complies with federal health insurance requirements. The coordinator must be credentialed and comply with confidentiality requirements of licensed school nurses, marriage and family therapists, educational psychologists, and clinical counselors.

CONCUSSION AND HEAD INJURIES

EC §49475

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. A school district that elects to offer athletic programs must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity. The athlete may not return to that activity until he or she is evaluated by, and receives written clearance from, a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete's parent or guardian before the athlete's initiating practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

CONTROLLED SUBSTANCES: OPIOIDS

EC §49476

The athletic departments of the Conejo Valley Unified School District will provide facts regarding the risks and side effects of opioid use each school year to athletes. Parents and student athletes must sign acknowledgement of receipt of the document annually.

IMMUNIZATIONS

EC §48216, EC §49403, HSC §120325, HSC §120335, HSC §120365, HSC §120370, HSC §120375 & CVUSD Board Policy 5141.31

Students must be immunized against certain communicable diseases. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school district shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in school age children. The district may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student who parents have consented in writing.

Beginning January 1, 2016, parents of students in any school will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.

Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from a school or other institution when that child has been exposed to a specified disease and whose documentary proof of immunization status does not show proof of immunization against one of the communicable diseases described above.

The Superintendent or designee shall not unconditionally admit any student to a district elementary or secondary school, preschool, or child care and development program for the first time nor, after July 1, 2016, admit or advance any student to grade 7 unless the student has been fully immunized. The student shall present documentation of full immunization, in accordance with the age/grade and dose required by the California Department of Public Health (CDPH), against the following diseases:

- Measles, mumps, and rubella (MMR)
- Diphtheria, tetanus, and pertussis (whooping cough) (DTP, DTaP, or Tdap)
- Poliomyelitis (polio)
- Hepatitis B
- Varicella (chickenpox)
- Haemophilus influenza type b (hib meningitis)
- Any other disease designated by the CDPH

Free- or low-cost immunizations for children are available. Please contact the Ventura County Health Care Agency found on their website located at <https://www.shotsforschool.org/k-12/> for more information.

LACTATION ACCOMMODATIONS

EC §222 & CVUSD Board Policy 5146

The Conejo Valley Unified School District provides reasonable accommodations to a lactating pupil on a school campus to express breast milk, breast-feed an infant child, or address other needs related to breast-feeding. These accommodations include, but are not limited to, access to a private and secure room, other than a restroom, to express breast milk or breast-feed an infant child, permission to bring onto a school campus any equipment used to express breast milk, access to a power source for that equipment, and access to a place to safely store breast milk. A reasonable amount of time to accommodate the need to express breast milk or breast-feed an infant child is also given, and no academic penalty will be incurred as a result of use of these reasonable accommodations during the school day.

MEDICAL SERVICES INFORMATION

EC §49471 & EC §49472

Medical Services

Conejo Valley Unified School District does not provide insurance to cover student accidents or injuries while the student is at school, going to or from school, or while attending school-sponsored activities.

Health Insurance Coverage for Athletes

Under state law, school districts are required to ensure that all members of school athletic teams have accidental injury insurance that covers medical and hospital expenses. This insurance requirement can be met by the school district offering insurance or other health benefits that cover medical and hospital expenses.

Low- or no-cost insurance for students may be available through Healthy Families Program, Medi-Cal, or other insurance programs for those who qualify. Parents/guardians may call (800) 880-5305 for information or an application.

Medical Attention at School for Accidents/Injuries

An emergency card will be used to contact parents/guardians in the event of a medical emergency. The school will act in the absence of parent contact to ensure appropriate medical treatment is provided even if the parent/guardian cannot be reached. Specific health care information and/or direction regarding emergency care must be noted on emergency cards.

MENSTRUAL PRODUCTS

EC §35292.6

On or before the start of the 2024-25 school year, a public school, including a school operated by a school district, county office of education, or charter school, maintaining any combination of classes from grades 6 to 12, inclusive, shall stock the school's restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women's restrooms and all-gender restrooms, and in at least one men's restroom.

MENTAL HEALTH SERVICES

EC §49428

In order to initiate access to available pupil mental health services, you may contact the following mental health provider: Ventura County Behavioral Health crisis line at (866) 998-2243. Our school district will notify parents at least twice per year. This is one time through our Annual Notifications, and we will also notify you again a second time each school year through the mail or another commonly used method of notification.

ORAL HEALTH ASSESSMENT

EC §49452.8 & CVUSD Board Policy 5141.6

Record of a dental assessment done by a dental professional is required for all transitional/regular kindergarteners and first graders attending public school for the first time. Dental assessments must be completed in the 12 months prior to entry or by May 31 of the pupil's first school year.

PHYSICAL EXAMINATION

EC §49451, USC Title 20 §1232h, CVUSD Board Policy 5141.3 & CVUSD Administrative Regulation 5141.3

A parent or guardian may file annually with the school principal a written statement, signed by the parent or legal guardian, withholding consent to a physical examination of the pupil. However, whenever there is good reason to believe that the pupil is suffering from a recognized contagious or infectious disease, the pupil shall be sent home and shall not be permitted to return until school authorities are satisfied that the contagious or infectious disease no longer exists.

PUPIL SAFETY – SYNTHETIC DRUG USE AND OPIOID OVERDOSE

EC §48985.5 & EC §49414.3

Synthetic drugs that are not prescribed by a physician, such as fentanyl or opioids, are extremely dangerous, and there is the possibility that dangerous synthetic drugs can be found in counterfeit pills.

The Superintendent or designee shall make naloxone hydrochloride or another opioid antagonist available for emergency medical aid to any person suffering, or reasonably believed to be suffering, from an opioid overdose.

SUDDEN CARDIAC ARREST PREVENTION ACT

EC §33479 et seq.

The senate bill requires a pupil in any public school, including a charter school, or private school that elects to conduct athletic activities, and the pupil's parent or guardian, to sign and return an acknowledgement of receipt of an information sheet on sudden cardiac arrest symptoms and warning signs each school year before the pupil participates in an athletic activity.

TOBACCO FREE CAMPUS

HSC §104420, HSC §104495 & CVUSD Board Policy 5131.62

The Board prohibits smoking and/or the use of tobacco products at any time in district-owned or leased buildings, on district property, in district vehicles, and within 250 feet of a youth sports event.

These prohibitions apply to all employees, students, and visitors at any school-sponsored instructional program, activity, or athletic event held on or off district property. Any written joint use agreement governing community use of district facilities or grounds shall include notice of the district's tobacco-free schools policy and consequences for violations of the policy.

Smoking means inhaling, exhaling, burning, or carrying of any lighted or heated cigar, cigarette, pipe, tobacco, or plant product intended for inhalation, whether natural or synthetic, in any manner or form, and includes the use of an electronic smoking device that creates aerosol or vapor or of any oral smoking device for the purpose of circumventing the prohibition of smoking.

Tobacco products include:

1. Any product containing, made, or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, including, but not limited to, cigarettes, cigars, little cigars, chewing tobacco, pipe tobacco, or snuff
2. An electronic device that delivers nicotine or other vaporized liquids to the person inhaling from the device, including, but not limited to, an electronic cigarette, cigar, pipe, or hookah
3. Any component, part, or accessory of a tobacco product, whether or not sold separately

This policy does not prohibit the use or possession of prescription products and other cessation aids that have been approved by the U.S. Department of Health and Human Services, Food and Drug Administration, such as nicotine patch or gum.

Smoking or use of any tobacco-related product or disposal of any tobacco-related waste is prohibited within 25 feet of any playground, except on a public sidewalk located within 25 feet of the playground. In addition, any form of intimidation, threat, or retaliation against a person for attempting to enforce this policy is prohibited.

TYPE 1 DIABETES INFORMATION

EC §49452.6

On and after January 1, 2023, the governing board of a school district, county board of education, and governing body of a charter school shall make the Type I Diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school, or with the information provided pursuant to Section 48980. Information provided to parents and guardians pursuant to this section may include, but shall not be limited to, all of the following:

The Description of Type I Diabetes: If you have Type I Diabetes, your pancreas does not make insulin or makes very little insulin. Insulin helps blood sugar enter the cells in your body for use as energy. Without insulin, blood sugar cannot get into cells and builds up in the bloodstream. High blood sugar is damaging to the body and causes many of the symptoms and complications of Diabetes. Type I Diabetes was once called insulin-dependent or juvenile diabetes. It usually develops in children, teens, and young adults, but it can happen at any age. Type I Diabetes is less common than Type 2—about 5-10% of people with diabetes have Type I. (CDC)

Risk Factors, Symptoms and Warning Signs associated with Type I Diabetes: Type I Diabetes is thought to be caused by an immune reaction (the body attacks itself by mistake). Risk factors for Type I Diabetes are not as clear as for prediabetes and Type 2 Diabetes. Known risk factors include: Family history (having a parent, brother, or sister with type 1 diabetes) or age. Type I Diabetes can happen at any age, but it usually develops in children, teens, or young adults. If you have any of the following diabetes symptoms, see your doctor about getting your blood sugar tested may be: Frequent urination (often at night); thirst; loss of weight without trying; hunger; blurry vision; numbness or tingling of hands or feet; extreme fatigue; very dry skin; have sores that heal slowly and may have more infections than usual. (CDC) It can take months or years before symptoms of Type I Diabetes are noticed. Type I Diabetes symptoms can develop in just a few weeks or months. Once symptoms appear, they can be severe. Some Type I Diabetes symptoms are similar to symptoms of other health conditions. (ADA)

Type I Diabetes Health Screening Process: A simple blood test will let you know if you have diabetes. If your child is screened at a health fair or pharmacy, follow up with their healthcare provider. If your child's healthcare provider thinks you have Type I Diabetes, your blood may also be tested for autoantibodies. These substances indicate your body is attacking itself and are often found with Type I Diabetes but not with Type 2. Ketones may be present in their urine or blood. Ketones are produced when your body burns fat for energy. Having ketones in their urine or blood indicates that they have Type I Diabetes instead of Type 2. (ADA)

Following a Type I Diabetes diagnosis, parents or guardians should consult with the pupil's primary healthcare provider to develop an appropriate treatment plan, which may include consultation with and examination by a specialty care provider, including, but not limited to, a properly qualified endocrinologist. TYPE 2 DIABETES INFORMATION

EC §49452.7

Pursuant to California Education Code Section 49452.7, this type 2 diabetes information is for local educational agencies to provide to parents and guardians of incoming seventh grade students.

The California Department of Education developed this type 2 diabetes information in collaboration with the California Department of Public Health, American Diabetes

Association, California School Nurses Organization, and Children's Hospital of Orange County.

Type 2 diabetes is the most common form of diabetes in adults.

- Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.
- According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in their lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.

- The body turns the carbohydrates in food into glucose, the basic fuel for the body's cells.
- The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.
- In type 2 diabetes, the body's cells resist the effects of insulin, and blood glucose levels rise.
- Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.
- Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes

It is recommended that students displaying or possibly experiencing the risk factors and warning signs associated with type 2 diabetes be screened (tested) for the disease.

Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:

- Being overweight. The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.
- Family history of diabetes. Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.
- Inactivity. Being inactive further reduces the body's ability to respond to insulin.
- Specific racial/ethnic groups. Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.
- Puberty. Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes

Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.

- Increased hunger, even after eating
- Unexplained weight loss
- Increased thirst, dry mouth, and frequent urination
- Feeling very tired
- Blurred vision
- Slow healing of sores or cuts
- Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms
- Irregular periods, no periods, and/or excess facial and body hair growth in girls
- High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments

Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.

- Eat healthy foods. Make wise food choices. Eat foods low in fat and calories.
- Get more physical activity. Increase physical activity to at least 60 minutes every day.
- Take medication. If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child's age, weight, and height. A doctor can also request tests of a child's blood glucose to see if the child has diabetes or prediabetes (a condition which may lead to type 2 diabetes). There are different screening tests that are available through a health practitioner.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student's school nurse, school administrator, or health care provider if you have questions.

I hereby acknowledge that, as a part of the District's effort to address student mental health and wellness, there may be occasions in which a mental health or wellness professional will work with your student should they seek support through drop in services at the High School Wellness Center. Wellness drop-in services are student initiated, brief, supportive interventions for students experiencing difficulties or stress while at school. More information on the District's wellness services can be found on the CVUSD website or in School Board of Education Board Policy 5141.5.

SUICIDE PREVENTION

EC §215, CVUSD Board Policy 5141.52 & CVUSD Administrative Regulation 5141.52

The Governing Board recognizes that suicide is a leading cause of death among youth, prevention is a collective effort that requires stakeholder engagement, and school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. In an effort to reduce suicidal behavior, its impact on students and families, and other trauma associated with suicide, the Superintendent or designee shall develop measures and strategies, practices and supports for suicide prevention, intervention, and postvention.

In developing policies and procedures for suicide prevention, intervention and postvention, the Superintendent or designee shall consult with school and community stakeholders, school-employed mental health professionals, suicide prevention experts, and, in developing policy for grades K-6, the county mental health plan. (Education Code §215)

School and community stakeholders and school mental health professionals with whom the Superintendent or designee shall consult may include district and school administrators, school counselors, school psychologists, school social workers, school nurses, other staff, parents/guardians and caregivers, students, local health agencies, mental health professionals, community organizations, law enforcement, legal counsel, and/or the district's risk manager or insurance carrier. The Superintendent or designee may also collaborate with county and/or city governments in an effort to align district policy with any existing community suicide prevention plans.

Measures and strategies for suicide prevention, intervention and postvention shall include, but are not limited to:

1. Staff development on suicide awareness and prevention for teachers, interns, school counselors, and others who interact with students including, as appropriate, paraeducators, campus safety assistants, substitute teachers, coaches, expanded day learning staff, crossing guards, tutors, and volunteers.
2. Instruction to students in problem-solving and coping, and resiliency skills to promote students' mental, emotional, and social health and well-being, as well as instruction in recognizing and appropriately responding to warning signs of suicidal intent in others.
3. Methods for promoting a positive school climate that enhances students' feelings of connectedness with the school and that is characterized by caring staff and harmonious interrelationships among students.
4. The review of materials and resources used in awareness efforts and communications to ensure they align with best practices for safe and effective messaging about suicide.
5. The provision of information to parents/guardians, and caregivers regarding risk and protective factors and warning signs of suicide, the severity of the suicide problem among youth, the district's suicide prevention curriculum, the district's suicide prevention policy and procedures, basic steps for helping suicidal youth, the importance of communicating with appropriate staff if suicide risk is present or suspected, access to suicide prevention training, and/or school and community resources that can help youth in crisis.
6. Encouragement for students to notify appropriate school personnel or other adults when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.
7. Crisis intervention procedures for addressing suicide threats or attempts.
8. Counseling and other postvention strategies for helping students, staff, and others cope in the aftermath of a student's suicide.
9. Establishment of district and/or school-site crisis intervention team(s) to ensure the proper implementation and review of this policy and other district practices related to the emotional and behavioral wellness of students, including, but not limited to, the oversight of mental health and suicide prevention training, collaboration with community mental health organizations, identification of resources and organizations that provide evidence-based treatment, collaboration to build community response, and compliance with Education Code §215.

As appropriate these measures and strategies shall specifically address the needs of students who are at high risk of suicide, including, but not limited to, students who are bereaved by suicide; students with disabilities, mental illness, or substance use disorders; students who are experiencing homelessness or who are in out-of-home settings such as foster care; and students who are lesbian, gay, bisexual, transgender, or questioning. (Education Code §215)

The Board shall ensure that measures and strategies for students in grades K-6 are age appropriate and delivered and discussed in a manner that is sensitive to the needs of young students. (Education Code §215)

If a referral is made for mental health or related services for a student in grade K-6 who is a Medi-Cal beneficiary, the Superintendent or designee shall coordinate and consult with the county mental health plan. (Education Code §215)

District employees shall act only within the authorization and scope of their credential or license. Nothing in this policy shall be construed as authorizing or encouraging district employees to diagnose or treat mental illness unless they are specifically licensed and employed to do so (Education Code §215)

The Board shall review, and update as necessary, this policy at least every five years. The Board may, at its discretion, review the policy more frequently. (Education Code §215)

The Superintendent or designee shall periodically review district data pertaining to school climate and reports of suicidal ideation, attempts, or death to identify patterns or trends and make recommendations regarding program development.

The Superintendent or designee shall post this policy on the district's website, in a prominent location and in a manner that is easily accessible to parents/guardians and students. (Education Code §234.6)

Suicide Prevention – Staff Development

Suicide prevention training shall be provided to teachers, interns, counselors, and others who interact with students including, as appropriate, substitute teachers, coaches, expanded day learning staff, crossing guards, tutors, and volunteers. The training shall be offered under the direction of a district counselor/psychologist, and/or social worker who has received advanced training specific to suicide and who may collaborate with one or more county or community mental health agencies.

Materials for training shall include how to identify appropriate mental health services at the school site and within the community, and when and how to refer youth and their families to those services. Materials also may include programs that can be completed through self-review of suitable suicide prevention materials. (Education Code §215)

Additionally, staff development shall include research and information related to the following topics:

1. The higher risk of suicide among certain groups, including, but not limited to, students who are impacted by suicide; students with disabilities, mental illness, or substance use disorders; students who are experiencing homelessness or who are in out-of-home settings such as foster care; and students who are lesbian, gay, bisexual, transgender, or questioning
2. Individual risk factors such as previous suicide attempt(s) or self-harm, history of depression or mental illness, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe or traumatic stressor or loss, family instability, impulsivity, and other factors
3. Identification of students who may be at risk of suicide, including, but not limited to, warning signs that may indicate depression, emotional distress, or suicidal intentions, such as changes in students' personality or behavior and verbalizations of hopelessness or suicidal intent
4. Protective factors that may help to decrease a person's student's suicide risk, such as resiliency, problem-solving ability, access to mental health care, and positive connections to family, peers, school, and community
5. Instructional strategies for teaching the suicide prevention curriculum, and promoting mental and emotional health, reducing the stigma associated with mental illness, and using safe and effective messaging about suicide
6. The importance of early prevention and intervention in reducing the risk of suicide
7. School and community resources and services, including resources and services that meet the specific needs of high-risk groups
8. Appropriate ways to interact with a student who is demonstrating emotional distress or is suicidal and procedures for intervening when a student attempts, threatens, or discloses the desire to die by suicide, including, but not limited to, appropriate protocols for constant monitoring and supervision of the student, during the time the student is in the school's physical custody, while the immediate referral of the student to medical or mental health services is being processed
9. District procedures for responding after a suicide has occurred
10. Common misconceptions about suicide

The district may provide additional professional development in suicide risk assessment and crisis intervention to district mental health professionals, including, but not limited to, school counselors, psychologists, social workers, and nurses.

CALIFORNIA LAW REGARDING SAFE STORAGE OF FIREARMS

PC 25100-25125, PC 25200-25220, PC 25105, PC 25205 & CC 1714.3

The purpose of this memorandum is to inform and to remind parents and legal guardians of all students in the Conejo Valley Unified School District of their responsibilities for keeping firearms out of the hands of children as required by California law. There have been many news reports of children bringing firearms to school. In many instances, the child obtained the firearm(s) from his or her home. These incidents can be easily prevented by storing firearms in a safe and secure manner, including keeping them locked up when not in use and storing them separately from ammunition.

To help everyone understand their legal responsibilities, this memorandum spells out California law regarding the storage of firearms. Please take some time to review this memorandum and evaluate your own personal practices to assure that you and your family are in compliance with California law.

- With very limited exceptions, California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through twelfth grade, or to any school-sponsored event, activity, or performance; or (3) unlawfully brandishes the firearm to others.¹
 - Note: The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.
- With very limited exceptions, California also makes it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person knows or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor **never** actually accesses the firearm.²
- In addition to potential fines and terms of imprisonment, as of January 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years.³
- Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward.⁴

Note: Your county or city may have additional restrictions regarding the safe storage of firearms.

Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

Gun violence restraining orders (GVROs) allow guns to be removed from the home temporarily - and prevent further purchases - when someone is at risk of harming themselves or others. Families or teachers can apply to a court for a GVRO directly, and anyone can ask law enforcement for a GVRO to remove firearms from individuals who may be violent or in crisis.

CVUSD Resolution #19/20-32

CVUSD schools are required to comply with California Education Code Sections 32280-32290, which mandate the preparation of school safety plans addressing violence prevention, emergency preparedness, traffic safety and crisis response. Lawmakers, community members, non-profit organizations, and local leaders nationwide are working together to implement public awareness campaigns which encourage secure gun storage practices and highlight the public safety risk of unsecured guns. Evidence strongly suggests that secure firearm storage is an essential component to any effective strategy to keep school and students safe. Research shows that secure firearm storage practices are associated with up to an 84 percent reduction in the risk of self-inflicted and unintentional firearm injuries among children and teens. The U.S. Secret Service National Threat Assessment Center recommends the importance of appropriate storage of weapons because many school attackers used firearms acquired from their homes. The Conejo Valley Unified School District Board of Trustees and the Superintendent will continue to work with local law enforcement agencies, health agencies, and non-profits to inform District parents about secure storage of firearms in their homes.

GUN-FREE SCHOOL ZONE

Penal Code §626.9 & Penal Code §30310

Unless it is with the written permission of the school district superintendent, the superintendent's designee, or equivalent school authority, no person shall carry ammunition or reloaded ammunition onto school grounds, except sworn law enforcement officers acting within the scope of their duties.

This section shall not apply to any of the following: A duly appointed peace officer, a full-time paid peace officer of another state or the federal government who is carrying out official duties while in California; any person summoned by any of these officers to assist in making an arrest or preserving the peace while that person is actually engaged in assisting the officer; a member of the military forces of this state or of the United States who is engaged in the performance of that person's duties; an armored vehicle guard, who is engaged in the performance of that person's duties; any peace officer, whether active or honorably retired; any other duly appointed peace officer; any honorably retired peace officer who during the course and scope of their appointment as a peace officer was authorized to, and did, carry a firearm; and a person carrying ammunition or reloaded ammunition onto school grounds that is in a motor vehicle at all times and is within a locked container or within the locked trunk of the vehicle.

PESTICIDE PRODUCTS

EC §17612, EC §48980.3 & CVUSD Administrative Regulation 3514.2

As directed in Assembly Bill 2260, Section 1. Article 4., this has been added to Chapter 5 of part 10.5 of the Education Code, to read "Article 4. Healthy Schools Act of 2000".

Section 17612 of this act reads as follows: "The school district designee shall annually provide to all staff and parents or guardians of pupils enrolled at a school site a written notification of the name of all pesticide products expected to be applied at the school facility during the upcoming year."

Please see the school district's List of Products we expect to use at our sites for the 2024-2025 school year listed below.

Section 17612, Part 1, also reads that the school district designee shall provide the opportunity for recipients to register with the school district if they wish to receive notification of individual pesticide applications at the school facility. Persons who register for such notification shall be notified of individual pesticide applications at least 72 hours prior to the application.

To register under this section please mail your name, address, student's name and school site to the Maintenance & Operations Department at 667 Rancho Conejo Road, Newbury Park, California, 91320, "Attention Pesticide Notification" or your name, address, student's name and school site, subject-Pesticide Notification via email to: ebrisley@conejo.usd.org.

It is the goal of the Conejo Valley Unified School District to use the least toxic methods of pest control at the lowest effective dose through our Integrated Pest Management Program (IPM). A copy of the Conejo Valley Unified School District's IPM policy statement is stated below. If further information is desired, please contact via email: ebrisley@conejo.usd.org.

INTEGRATED PEST MANAGEMENT POLICY (IPM) STATEMENT

The Conejo Valley Unified School District initiated an IPM Program in September of 1988. Since the initiation of the IPM Program, it has been the intent of the CVUSD to continue to utilize IPM principles to manage pest populations adequately. The choice of using a pesticide will be based on a review of all other available options and a determination that these options are unacceptable or are infeasible, alone or in combination. Cost or staffing considerations alone will not be adequate

justification for use of chemical control agents. Strategies for managing pest populations will also be influenced by the pest species and the degree to which that population poses a threat to people, property, or the environment. The full range of alternatives, including no action, will be considered.

When it is determined that a pesticide must be used in order to prevent pest levels from exceeding action thresholds, the least hazardous material will be chosen and applied at the lowest possible effective dose.

Our Rodent Control Leadworker and Facility Supervisor-Grounds are licensed and certified "Qualified Pesticide Applicators". Both are required to attend continuing education classes for pest management.

Listed below are the names of all pesticide and/or herbicide products that Conejo Valley Unified School District's Maintenance & Grounds Department may apply at a school facility. Further information may be found at this website address:

The Superintendent or designee shall report their findings and recommendations to the Board after each review.

PARENT PARTICIPATION IN SCHOOL MEETINGS AND CONFERENCES

Labor Code 230.8

Parents may not be discriminated against for taking time off work up to 40 hours each year for child-related activities (for a child in grade K-12 or in a licensed child care facility) if the employer has 25 or more employees. Prior to taking the time off, parent should plan for absence, not to exceed eight hours in any calendar month to address school or emergency needs. "Parent" may mean a parent, guardian,

stepparent, foster parent, grandparent or a person who stands in loco parentis to a child. Emergency applies to prohibited attendance for behavior, discipline, unexpected closure or unavailability of child care provider, natural disaster, or other means to put student in danger for lack of supervision. The employer may not discharge or threaten to discharge for any of the labor code protections. Therefore, parents may be allowed to come to IEP meetings, suspension or expulsion conferences, SART or SARB meetings, or Student Study Team meetings by following the labor code guidelines. With employees of workplaces with less than 25 employees, reasonableness applies regarding unpaid leave. It should not be considered an abandonment of the work position by walking off without explicit permission, and should still not be justification for dismissal without cause.

PROPERTY DAMAGE

EC §48904

Parents or guardians may be held financially liable if their child willfully damages school property or fails to return school property loaned to the child. The school may further withhold the grades, diploma, and transcript of the pupil until restitution is paid after affording the pupil due process.

COMPLAINT PROCESS

SEXUAL HARASSMENT POLICY

EC §48980(g), CVUSD Board Policy 5145.7 & CVUSD Administrative Regulation 5145.7

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The District strongly encourages any students who feels that they are being or have been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult, or who have experienced off-campus sexual harassment that has a continuing effect on campus, to immediately contact their teacher, any school administrator, the principal as the Site Title IX Coordinator, the District's Title IX Coordinator, or any other available school employee. Students may also provide a confidential report through the District's "Confidential Incident Reporting" form (<http://bit.ly/CVUSDConfidentialReport>). Any employee who receives a report or observes an incident of sexual harassment shall notify the Site or District Title IX Coordinator.

Once notified, the Title IX Coordinator who receives said report shall ensure the complaint is addressed through Title IX complaint procedures or uniform complaint procedures, as applicable, and shall offer supportive measures to the complainant. The Superintendent or designee shall inform students and parents/guardians of the District's sexual harassment policy by disseminating it through parent/guardian notifications, publishing it on the District's website, and including it in student and staff handbooks. All district staff shall be trained regarding the policy.

Instruction/Information

The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment; including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained
4. A clear message that student safety is the District's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and prompt action shall be taken to stop any harassment, prevent recurrence, and address any continuing effect on students
6. Information about the District's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made
7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues
8. A clear message that, when needed, the District will implement supportive measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation

Sexual harassment complaints by and against students shall be investigated and resolved in accordance with law and District procedures specified in AR 1312.3 - Uniform Complaint Procedures. Principals are responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures.

Disciplinary Actions

Upon completion of an investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in

imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall be subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

Record-Keeping

In accordance with law, the Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the District to monitor, address, and prevent repetitive harassing behavior in district schools.

The district shall provide reports on the aggregate complaints of bullying and harassment and document the responses to these complaints to the Board annually. These reports shall be made available to the public while preserving confidentiality of all parties.

Coordinator/Compliance Officer (AR 5145.7)

STUDENT ACCEPTABLE USE OF TECHNOLOGY POLICY

EC §51870.5 & CVUSD Board Policy 6163.4

Electronic Communication Acceptable Use

Electronic communication provides access to vast and diverse resources. Through Local Area Networks (LANs), Wide Area Networks (WAN), and the Internet, staff and students have access to individuals, groups, data, and materials from all over the world. Appropriate access to these resources is consistent with the District's goal of promoting educational excellence. It is understood that much of the material available through electronic communication has no direct educational value for students, and some of the material available is not suitable at all for students. It is also understood that the District cannot control the content of the materials on a global network, nor can it fully protect students who misuse District resources to electronically access materials.

- a. Access to a District LAN, WAN, or the Internet is a privilege, not a right.
- b. To assure the appropriate use of District resources for electronic communication, the following requirements shall apply to all District staff and students.
 1. All use must be in support of the educational mission, goals, objectives, and/or curriculum grade level content standards adopted by the Board of Education.
 2. All use must be consistent with the rules of any network being accessed.
 3. Unauthorized use of copyrighted materials is prohibited.
 4. Distribution of material protected by trade secret is prohibited.
 5. Threatening or obscene material is prohibited.
 6. Use for commercial activities is prohibited.
 7. Use for product advertisement or political lobbying is prohibited.
- c. All staff and students using the District LAN, WAN, or Internet access shall sign an Acceptable Use Agreement acknowledging their agreement to abide by this Policy and any related regulations.
- d. Violations of this policy will result in appropriate disciplinary action, which may include loss of access, the full range of disciplinary consequences allowed by the Education Code, and criminal prosecution.

Electronic Signaling Devices

EC §48901.5 & CVUSD Board Policy 5131

The Board of education acknowledges that there are legitimate reasons for students to possess and use electronic devices such as cellular phones, and pagers while going to and from school, and before and after school related activities. However, electronic devices will not be permitted to disrupt instruction, instructional programs, and/or school related activities nor to use a device to infringe upon the privacy rights of others. Therefore:

- a. Electronic devices shall be turned off in class, except when being used for a valid instructional or other school-related purpose as determined by the teacher or other district employee, and any other time directed by a district employee.
- b. Any device with camera, video, or voice recording function shall not be used in any manner which infringes on the privacy rights of any other person.
- c. No student shall be prohibited from possessing or using an electronic device that is determined by a licensed physician or surgeon to be essential for the student's health and the use of which is limited to purposes related to the student's health. (EC §48901.5)
- d. The District assumes no responsibility for the protection, loss, or damage to any electronic device.

Internet Safety and Cyber-bullying

A national concern is the inappropriate use of the internet by students. "Cyber-bullying" is one of those misuses which includes the transmission of communications by posting of harassing messages, direct threats, social cruelty, or other harmful texts, sounds, or images on the Internet, social networking sites, or other digital technologies using a telephone, computer, or any wireless communication device. It also includes breaking into another person's electronic

account and assuming that person's identity in order to damage that person's reputation or friendships.

While the district has and will continue to ensure the safety of each student and continue to monitor student use of technology in school and at school sponsored events, it is apparent that there is an ongoing development of more sophisticated means of accessing the Internet. Across the nation, there has been an increase in negative student behavior in the use of home computers to post messages to popular "chat room" or "message exchange" websites. These websites allow students to chat with others and to post statements that ordinarily would not be said in a face-to-face conversation, otherwise referred to as "cyber-bullying". Unfortunately, some of these websites are being used by child predators, "cyber-bullies", and con artists with the intent of harming others. In some cases, adults pose as youths and gain access to student chat rooms. Some of these contacts have led to tragedy as some students post personal information, such as addresses and telephone numbers that predators can use to locate students. Some students (mostly between the ages of 9 and 14) use the anonymity of the websites to participate in online bullying to threaten harm to other students without witnessing the consequences. Students who are bullied online sometimes do not report these incidences for fear of being harmed further or being restricted from using the internet. Therefore, it is recommended that you:

1. Discuss the potential danger of the Internet with your son or daughter.
2. Ask if they have an account with any website. If they are using such a site with your permission, review your child's profile to ensure that no personal and identifiable information has been posted.
3. Establish rules and guidelines to ensure your child's safety on the Internet. Examples of websites that provide helpful guidelines include:
www.safekids.com, www.netismartz.org, www.connectsafely.org, and www.cyberbullying.us.

Student Responsible Use Agreement for Using Technology in School

After reviewing the presented guidelines and expectations for the Acceptable Use Policy (AUP) available at www.conejousd.org or in print by request, students and parents acknowledge the following by signing this agreement. As a CVUSD student, I understand that:

1. My use of the school network and email is a privilege, not a right.
2. My school and district's network and email accounts are owned by the CVUSD and are not private. CVUSD has the right to access my information at any time.
3. I am responsible for my computer account and email account.
4. I will not allow others to use my account name and password or try to use that of others.
5. I am responsible for my language and conduct.
6. I am responsible for following school rules and the guidelines within this document whenever I publish anything online.
7. I am responsible for protecting school property, including the security of the CVUSD's network.
8. I will use technology in a manner that complies with laws of the United States and the State of California, including copyright laws.
9. I understand that I am to notify an adult immediately if I encounter material that violates appropriate use.
10. I understand that my school may, at any time, sequester any school or district-owned device in my possession.
11. CVUSD Administrators, local teachers, and law enforcement will deem that conduct is inappropriate use if such conduct is not specified in this agreement.

LIMITATIONS ON IMPOSING SUSPENSION

EC §48900.5

- (a) Suspension, including supervised suspension as described in Section 48911.1, shall be imposed only when other means of correction fail to bring about proper conduct. A school district may document the other means of correction used and place that documentation in the pupil's record, which may be accessed pursuant to Section 49069.7. However, a pupil, including an individual with exceptional needs, as defined in Section 56026, may be suspended, subject to Section 1415 of Title 20 of the United States Code, for any of the reasons enumerated in Section 48900 upon a first offense, if the principal or superintendent of schools determines that the pupil violated subdivision (a), (b), (c), (d), or (e) of Section 48900 or that the pupil's presence causes a danger to persons.
- (b) Other means of correction include, but are not limited to, the following:

Local educational agencies are encouraged to regularly check on the victim of racist bullying, harassment, or intimidation to ensure that the victim is not in danger of suffering from long-lasting mental health issues. Local educational agencies are encouraged to require perpetrators to engage in culturally sensitive programs that promote racial justice and equity and combat racism and ignorance.

TERRORISTIC THREATS

CIRCUMSTANCES FOR RECOMMENDING EXPULSION

EC §48915

- (a)(1) Except as provided in subdivisions (c) and (e), the principal or the superintendent of schools shall recommend the expulsion of a pupil for any of the following acts committed at school or at a school activity off school grounds, unless the principal or superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct:

- (1) Possessing, selling, or otherwise furnishing a firearm. This subdivision does not apply to an act of possessing a firearm if the pupil had obtained prior written permission to possess the firearm from a certificated school employee, which is concurred in by the principal or the designee of the principal. This subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district.
