

COURSE TITLE: COMMERCIAL MUSIC

Level of Difficulty	Estimated Homework	Prerequisites
Medium	1-2 hours per week	District: 10-12 grade

Department Suggestion:

A C or above in Music Fundamentals and Production is a required prerequisite for this class.

Course Description:

Commercial Music is the second course in the Commercial Music Pathway. Throughout this course, students will build upon their practical musicianship, live performance, songwriting, and music recording and production skills. Students will practice performing and writing their own music. Students will be exposed to songwriting principles, arranging music, film scoring, and composing for commercials. Students will analyze and create their own music through industry standards, techniques and equipment including, but not limited to, sound equipment and music editing software. Completion of this course will provide a comprehensive and skills-based preparation for students to enter any commercial music or related field within the current music industry.

Grading:

Grades will be based mainly on weekly in-class projects, homework, quizzes, compositions, and final project.

Availability:

Offer in conjunction with IB Music

Supplemental Information:

"F" category in the A-G catalogue.
