

COURSE TITLE: Music Fundamentals and Production

Level of Difficulty	Estimated Homework	Prerequisites
---------------------	--------------------	---------------

Easy	40 min per week	District: 9-12 grade
------	-----------------	--------------------------------

Department Suggestion:
No previous experience with music or experience with a musical instrument required.

Course Description:

This is an introductory course that offers students essential skills both for general musical study as well as relevant music industry preparation for students seeking music careers in any non-performing music sector. The course covers essential music terminology, basic music principles, basic note-reading skills, keyboard skills, music software and music notation fluency. Elements of composition and songwriting are introduced.

Grading:

Grades will be based mainly on in-class exercises, daily homework, quizzes, written midterm, unit compositions and a final songwriting project.

Availability:

Typically offered during period 1 - see counselor for specifics.

Supplemental Information:

CTE and VPA course; A-G approved
