

COURSE TITLE: Woodworking Design

Level of Difficulty	Estimated Homework	Prerequisites
Moderate	0-30 Minutes	District: Conejo Valley Unified School District Department Suggestion: Wood 1 – C or better

Course Description:

This is an advanced course in the study of woodworking. This course is designed to allow the in-depth study into applications and processes previously used in Wood 1. During this course students will learn how to plan, select and use materials, including tools and machines to produce a finished product. Emphasis will be on safety and quality of workmanship. Students will be assigned one project to build to completion. Thereafter the student will be able to work on a project of their choice after completion of a full set of plans and approval from the instructor. This class is about the world of work and each student will need to be in attendance and participate fully in all activities. Materials cost will be applied to each project the student keeps.
