# Data at Every Level: Presentation on Student Performance 

Presented to Super DAC on March 15, 2023
Presented to CVUSD Board of Education on February 15, 2023

## Presentation Purpose

## Provide multi-level data snapshot on CVUSD student progress

## Levels of Data

|  | Definition | Types of Data |
| :--- | :--- | :--- |
| Level 1: <br> Satellite Data | Hovers far above the classroom <br> and tells an important, but <br> incomplete story. | California School <br> Dashboard |
| Level 2: <br> Map Data | Hovers closer to the ground than <br> satellite data, providing a GPS of <br> learning trends. | Local Benchmarks <br> Grade Distribution Reports |
| Level 3: <br> Street Data | Qualitative, systematic, and <br> experiential data that occurs at <br> "eye level." | Student Voice <br> Teacher Reflections |

## Satellite

## Data

Hovers far above the classroom and tells an important, but incomplete story.

## School Dashboard Details

- The last Dashboard was produced in 2019. This reflected data from the 2018-19 school year as compared to the previous 2017-18 data.
- The 2022 Dashboard is a restart of California's Dashboard accountability system.
- The 2022 Dashboard creates a new baseline for future comparison. 2022 Dashboard performance levels only reflect the 2021-2022 school year.

## California Dashboard Results

## CAASPP Participation Rates

- Required 95\% Participation Rate
- Spring 2022 was the first year in California that a penalty was imposed based on student participation of the CAASPP tests. Notification of this penalty was received three weeks after the CVUSD CAASPP testing window opened.
- For each student below the $95 \%$ threshold, that student is calculated using the lowest possible score in the California School Dashboard. This decreases the overall results for schools and student groups, and can provide an inaccurate picture of performance for those students who did take the test.

## CAASPP Participation Rates

## English Learner Progress

- These results are based on the English Language Proficiency Assessments for California (ELPAC) assessment that is administered once a year to all English Learners.
- The data highlights the importance of continuing to support our English learners (22.3\%) who have decreased one level.
- On the other hand, $\mathbf{3 8 . 1 \%}$ of our English learners progressed at least one level and it is important to recognize and celebrate this.
- There are currently 146 English Learners being reclassified this school year with the possibility of reclassifying more once we get the ELPAC results.

- Interventions and supports continue to be provided to English Learners at all schools to ensure they are making progress in their English acquisition.

ELs Who Decreased at Least One ELPI Level ELs who Maintained ELPI Levels 1, 2L, 2H, 3L, 3H

- ELs who Maintained ELPI Level 4

## California Alternative Assessment

The summative California Alternate Assessments (CAAs) for English language arts/literacy (ELA) and mathematics are administered to students whose IEP teams have determined them eligible. Eligible students are those whose disability prevents them from taking the Smarter Balanced Summative Assessments for ELA and mathematics and the California Science Test.

Like the SBAC ELA and Math, and the CAST, CAA is included in the English Language Arts and Mathematics CA Dashboard Indicators.

## Street

## Data

Qualitative, systematic, and experiential data that occurs at "eye level."

## Student Voice

What do you like about school?

What could be improved about your school or our district?

## What Some Students Are Saying...

- We could try to have better lunches. If you cannot, I understand. :-
- I noticed that yard duties don't do much when you say somebody is being mean.
- I think we should do art more often and go on more field trips.
- I feel like you guys should talk to the kids more so you know what they like and just get to know them better.
- I would really like there to be less homework assigned. I have baseball practice Monday through Friday. With lots of homework and practice, it can be stressful.
- SEL is not very helpful for me, but it it might be for others.

## Teacher Interview Reflections

- I learned that she is not as shy as I thought she was. She is actually a very outgoing child that needed a little extra attention to get comfortable and confident in school!
- How busy she is with extra curricular activities.
- I learned from my student that they have felt punished for providing incorrect answers in previous years. This has led them to be fearful of volunteering answers and has led them to question their work - even when they have the right answer.
- She has test anxiety, and really struggles to ask for help.
- More information about their home life that affects their behavior in school.
- I was surprised to learn that one of their hopes/dreams is to enjoy life more. I want to learn more about this.

## 2023 - Schools \& Students in the Spotlight:

- Award-Winning Schools: Including seven 2023 California Distinguished Schools - the most of any school district in Ventura County!
- Award-Winning Scholars: Including twenty 2023 National Merit Scholarship Program Semifinalists.
- Innovative School Programs:
- Spanish-English Dual Language Immersion Program launches at Conejo Elementary for TK \& Kindergarten in Fall 2022.
- January 2023 - Cypress Elementary receives International Baccalaureate Primary Years Programme authorization - the first elementary school in Ventura County to become an IB World School!
- A Focus on Inclusion:
- Aspen Elementary and Maple Elementary are set to become CVUSD's first elementary Unified Champion Schools, a designation from the Special Olympics Unified Champion Schools program which signifies the schools' ongoing commitment to acceptance, kindness and inclusion.
- Sammi Stewart of NPHS: 2023 Adapted Physical Education Teacher of the Year, Western District!
- Countywide Recognitions:
- Westlake High School and Thousand Oaks High School earn the top two spots in the 2023 Ventura County Academic Decathlon (it's the third consecutive year WHS placed first and will move onto the state competition).
- NPHS scholar-artist designs Ventura County Mock Trial logo selected in the annual logo contest hosted by the Ventura County Office of Education.

## Quick Staff Updates: Actions in Progress

## Instructional Services \& Student Services

- Share the space
- Everyone's voice matters
- Speak to your experience and Advisory Council/Committee
- Staff taking notes and floating
- Three 10-minute questions (30 minutes total)
- Identify a "speaker" from each table to share out

## Discussion Questions:

1. What surprised or concerned you in the presentation?
2. What have you seen at your school that may be supporting the achievement of students?
3. What might be good "next steps" to support the achievement of students?

## Table Discussions

- Table introductions (10:05-10:15)
- Presentation on data (10:15-10:45)
- Table discussion (10:45-11:15)
- Whole group sharing (11:15-1:23)
