LETTER OF TRANSMITTAL

To Honorable Board of Trustees and Citizens of the Conejo Valley Unified School District:

We hereby submit the Annual Comprehensive Financial Report of the Conejo Valley Unified School District for the fiscal year ended June 30, 2024 (FY 2024). Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with District leadership. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

This report is prepared in conformance with Generally Accepted Accounting Principles (US GAAP) for governments as promulgated by the Government Accounting Standards Board (GASB). This report is consistent with the legal reporting requirements of the State of California. The report also includes a "State and Federal Compliance Information" section, which is designed to meet the reporting requirements of the Office of the California State Controller, the U.S. Government Accountability Office, the U.S. Office of Management and Budget, and the Single Audit Act Amendments of 1996.

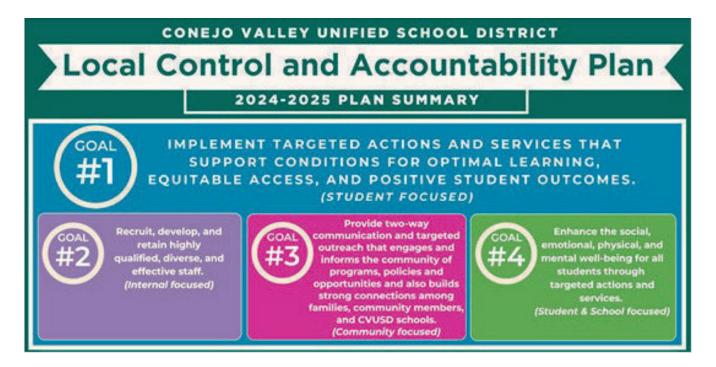

The District prepares the end of fiscal year financial reports, known as "Unaudited Actuals". Those financial statements have been audited by Moss, Levy, & Hartzheim, LLP, a certified public accounting firm. They have issued an unmodified ("clean") opinion on the District's financial statements for the fiscal year ended June 30, 2024. The independent auditor's report is located at the front of the financial section of this report.

Profile of the District

The Conejo Valley Unified School District was founded in 1974. It is one of twenty public school districts in Ventura County serving students from transitional kindergarten to grade twelve as well as preschool and adult programs. The District is located in the heart of the Conejo Valley bridging Ventura and Los Angeles Counties. The District's boundaries include Westlake Village, Thousand Oaks, and Newbury Park. The District serves a general population estimated at 125,760 in an area of approximately 56 square miles. In FY 2024, the District employed 2,023 employees, comprised of 989 certificated employees and 1034 classified (non-teaching) employees. Certificated employees (teachers, psychologists, counselors, nurses, principals, and other administrators) require a credential as a condition of employment. Classified employees are those for whom having a credential is not a condition of employment. Classified employees include, but are not limited to: paraeducators, technology support staff, clerical/secretarial support, custodial, grounds and maintenance workers, campus safety assistants, and other administrative supports.

The District serves approximately 16,000 students enrolled in twenty-eight schools—seventeen elementary (TK–5), four intermediates (6–8), one K-8, three comprehensive high schools (9-12), a continuation high school, and a hybrid learning academy which includes a home school program named "SHINE". The District also operates childcare programs serving over 1,200 children as young as 6-months, and an adult school which provides career education, language, and other professional and recreational learning opportunities for adults. The socioeconomic mix of the student population includes a 27% "unduplicated pupil percentage" (UPP) defined as students that qualify for free or reduced meals, English Language Learners, homeless, and foster children. The District values small class size, staffing its K–3 classes at a 21.5:1 student-to-teacher ratio and 30:1 for grades 4–12.

As the largest TK-12 District in Ventura County, the District continues to be a leader in academic excellence while being a coveted destination for teachers and staff. The District continues to provide what students deserve, and what parents demand in public education. Expansion of Music and Arts programs, hybrid learning options, expanded credit recovery, and enhanced wellness services (supported by a \$12 million Federal Grant) lead the District's focus on the whole student. The Conejo Valley Unified School District believes ALL students deserve an exceptional educational experience filled with opportunity and choices. For 2023-2024, the District's four goals were:

Location & Economic Conditions

Located between Los Angeles and Santa Barbara in Ventura County, Thousand Oaks is nestled against the Santa Monica Mountains and has over 15,000 acres of natural, publicly-owned open space within its boundaries. The city characteristics are as follows:

One-Third Designated Open Space

The City prides itself on its designated open space, which includes 150 miles of trails for hiking, biking, or leisurely walking. Our efforts at local electricity generation have also been very successful, especially at the wastewater treatment plant. Thousand Oaks is a Tree City in the USA and has been named one of the county's greenest cities.

Family Oriented

The City has been designated one of the safest cities in the US and one of 10 great cities to raise your kids. Thousand Oaks is home to some of the nation's top schools, outstanding parks, and a myriad of shopping opportunities, including one of the largest auto malls in the nation.

Cultural Arts Destination

Another source of pride is the Civic Arts Plaza. Opened in 1994, this jewel of cultural arts has become a beacon for our region, featuring world-class entertainment, musicals, concerts, children's shows, ballets, and much more.

Partner with Business

The City of Thousand Oaks values collaboration with residents and businesses. The commitment to public-private partnerships is most evident in adopting the City's blueprint for a revitalized downtown and the completion of the 2045 General Plan. Some of the City's most impressive accomplishments have come in infrastructure improvements. Public infrastructure enhances quality of life, and ensures the mobility of residents and businesses, now and in the future.

Economic Conditions

Compared to nearby jurisdictions of similar population size and/or location, Thousand Oaks tax rates rank among the lowest in sales, property, and utility users' rates. The June 2024 unemployment rate was 4.2%. The median household income is \$109,378 with a median age of 44.4 with 50% having completed at least a bachelor's degree. The median assessed value for a home is \$900,600 (census.gov). The District continues to enjoy strong support from the local community.

Outlook

The District's primary source of funding, property tax collections, has been growing over the last few years. The local housing market bears strongly on property tax collections and assessed values continue to rise over 4% per year with a 99% tax collection rate. Given the number of residents that pay taxes directly versus through regular monthly payments, tax collection schedules present cash flow challenges to the District. Soon to be adding to the tax base are City approved and planned developments that will increase the number of housing units city-wide by over 1,000 and include lower income housing units. Additionally, the District is fortunate to receive financial support from the local community through an Educational Foundation, PTA, PFA, and Booster Clubs, in excess of \$4 million annually.

Achievement

The District prides itself on providing an outstanding education to our students. Optimal learning, equitable access and positive student outcomes are the primary drivers of all four district goals. Educational partners, including staff, students, parents/guardians, and the public contribute to the creation, monitoring and adjustments to these plans. This coordinated approach emphasizes both district level and school site level implementation to ensure that our entire organization is working towards positive student outcomes for all students. State tests were administered districtwide during the spring of 2024 as required by the U.S Department of Education and the California State Board of Education. The most recent statewide test results show how well our students perform. The following are results from the Spring 2024 standards-based testing under the California Assessment of Student Performance and Progress (CAASPP).

- 65.11% of District students met or exceeded standards in English-Language Arts as compared to 47.04% statewide.
- 54.42% of District students met or exceeded standards in Mathematics as compared to 35.54% statewide.

In addition to the CAASPP results above, the California School Dashboard is an online tool that shows how local educational agencies and schools are performing on state and local indicators that are included in California's school accountability system. Built on the foundations of the Local Control Funding Formula state law, the Dashboard is one of several significant shifts that have occurred in California's K–12 education system within the past decade, which includes the establishment of a new testing system, raising the bar for student learning, and promoting equity for all students. CVUSD students widely outperform students across the state.

2024 California Dashboard Results:

	Chronic Absenteeism	Graduation Rate	Suspension Rate	English Language Arts	Mathematics	College / Career	English Learner Progress
CVUSD	11.9%	94.8%	1.9%	32.7 points	1.6 points	56.8%	41.3%
CVUSD							_

	absent		least one day	standard	standard		progress
California	18.6%	86.7%	3.2%	13.2 points	47.6 points	45.3%	45.7%
	chronically	graduated	suspended at	below	below	Prepared	making
	absent		least one day	standard	standard		progress

Long Term Planning/Major Initiatives

Academic Excellence

The District continues to improve and refine its academic offerings. Instructional Services and Student Services staff review progress on LCAP metrics, actions and services. The District has recently expanded academic programs to meet the broad needs of students and families, such as SHINE Homeschool, Century Academy, Dual Language Immersion, and International Baccalaureate programs. Expanded Learning Opportunity Program funds have given the District resources to provide after-school learning opportunities for students in grades TK-6. Recruiting and retaining fully qualified and well-trained teachers, support staff, and administrators remains challenging in the current economic and employment market, yet remain high priorities.

District Enrollment

The District is not without cautious outlook concerns indirectly related to economics. As school funding is based on average daily attendance and indirectly, enrollment, there will be challenges ahead. The current five-year run of declining enrollment in California's TK-12 public schools will continue for at least another decade, according to projection data by the state's Department of Finance. Overall, enrollment is projected to decline from 5,862,000 students in 2022-23 to 5,368,000 by 2030-31, a drop of almost a half million students – or 9.2%. About 15 years ago, statewide enrollment was about 6.3 million*. Like many other California School Districts, declining enrollment due to lower birth rates will impact the District in the coming years.

District Funding Status

For the typical school district in California, property taxes provide less than 40% of the total formula-driven

general operating revenue guarantee with the remainder 60%, in State aid. In our District, the picture is very different. Because of high assessed values, property tax collections are more significant and closer to 80%. This creates cash flow issues which sometimes requires the District to (short-term) borrow funds through a TRAN (Tax Revenue Anticipation Note) in order to bridge the gap between property tax payment collection cycles. Improved fiscal management and cash flow strategies have lessened the reliance on short-term borrowing. However, rising interest rates will impact the cost of borrowing in the future, if necessary.

Reserves Policy

The State-required minimum reserves level for a district our size is 3%. In addition, the District maintains a \$3 million reserve for fiscal uncertainty. As a result, unrestricted reserves at the end of FY 2024 were approximately 10% of total expenses.

Charter Schools

Within District boundaries, there are two county sponsored charter schools. The schools occupy District owned facilities and serve students in grades kindergarten through eighth grade. The majority of students attending the charter schools are District residents and many return to the District in either sixth or ninth grade. Based on State law, the District is required to provide facilities for in-district students and provide a share of its property tax revenues to the charter school as general-purpose funding for students attending the charter school. In FY 2023, the District apportioned \$5.6 million to the charter schools.

School Buildings

District schools were originally built between 1958 and 2006. Campuses were renovated in the early 2000s as part of the Bond Measure R program. Each campus also has relocatable classrooms and other added facilities used to accommodate enrollment growth cycles over the last twenty years. The District meets Routine Restricted Maintenance guidelines and supplements maintenance, modernization, and repairs with redevelopment funds, developer fees, deferred maintenance funds, and Bond Measure I.

Major Initiatives

In the fall of 2014, Bond Measure I was placed before the voters of the District and approved with a 66% affirmative vote. The proposed funding in the amount of \$146 million is dedicated to update schools, specifically science/career training labs, classroom technology and network infrastructure, general maintenance of classrooms, electrical, plumbing, and roofing, and improving overall school safety and security, with the balance of \$51 million for technology purchases through 2035, and to support a 1:1 program of a device for every student.

The District issued its first series of bonds under the 2014 measure (Series A) for \$37.2 million in June 2015. The District issued a second series (Series B) in June 2018 for \$50 million, a third series (Series C) in November 2020 for \$49.9 million, and to take advantage of historically low interest rates and a small delta between taxable and non-taxable bonds, the District issued the fourth series (Series D) in September 2021 for \$30.2 million with \$20.1 million in taxable bonds to support the "technology endowment" portion of the Measure which is set to extend through 2035. The final bond issue hit the markets in 2024, which concludes the District's authority to issue long-term debt under Measure I. The District continues to be fiscally conservative by issuing 15-year bonds instead of 30-year bonds in order to minimize interest costs for our taxpayers. The impact on taxpayers for the bond program is targeted at \$32.70 per \$100,000 of assessed valuation and has consistently come in below that threshold. The District carries no other long-term debt.

Financial Information

Internal and Budgetary Controls

The District maintains internal accounting controls designed to provide reasonable assurance that assets are safeguarded against loss from unauthorized use and disposition, and to provide reliable records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes the importance of a close evaluation of costs and benefits, which requires estimates and judgments by management. The objective is to secure efficient internal control, the cost of which must not exceed the benefits derived from it. The District believes its internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

School districts in California are required by Education Code Section 41010 to follow the California School Accounting Manual in preparing reports to the State. The District, under Assembly Bill 1200 (Chapter 1213, Statutes of 1991), utilizes a single-adoption budget schedule. The District adopts a budget prior to the Statemandated June 30 deadline and makes adjustments at First and Second Interim reporting periods.

Expenditures cannot legally exceed appropriations by major object classification, namely certificated salaries, classified salaries, employee benefits, books and supplies, services and other operating expenditures, capital outlay, debt service, other outgo, direct support/indirect costs, and operating transfers out. As per Education Code 42600, school districts may not spend more than the amounts authorized in the budget as adjusted during the school year. The school board reviews all purchase orders and other expenditures on a regular basis, but no less than monthly.

Encumbrance accounting is utilized to assure effective budgetary control and accountability. Unencumbered appropriations lapse at year-end. The District "carries over" only restricted funds.

Per Board Policy 3100, "the District's current-year budget and multi-year projections shall include adequate provisions for addressing the District's long-term financial obligations, including, but not limited to, long-term obligations resulting from collective bargaining agreements, financing of facilities projects, unfunded or future liability for retiree benefits, and accrued workers' compensation claims."

Fiscal Policies

The District utilizes historical trends data through assigned budget management codes in order to forecast and manage expenses. District practices create greater responsiveness to student needs and improve access to instruction and related materials, while giving decision making authority on programs closer to those who are directly responsible for the education of students. The District Budget/LCAP Committee provides research, information, and recommendations regarding budget and LCAP related actions. Linked to decentralized budgeting, the District permits unspent restricted program funds to be carried forward into the following year.

Independent Audit

Education Code Section 41020 provides that each school district shall arrange for an independent audit by certified public accountants of its books and accounts, including the district's income by source of funds and expenditures by object and program. The District's auditor for the fiscal year ending June 30, 2024 is Moss, Levy, & Hartzheim, LLP. More detailed financial information is available in the Management Discussion and Analysis (MD&A) section of this document.

Awards & Acknowledgements

The District has been awarded the Certificate of Excellence in Reporting by the Association of School Business Officials International (ASBO Int'l) for the past four fiscal years (2020, 2021, 2022, and 2023) and plans to submit the 2024 Fiscal Year ACFR for the distinguished recognition on financial reporting. The District maintains excellent credit ratings, recently upgraded to A+ from S&P, Aa3 from Moody's Investors Service and an AAA rating from Fitch, noting stable operating performance and conservative management practices. We wish to express our appreciation to the Board of Education for its support, and the staff of the District Business Office and the staff at Moss, Levy, & Hartzheim, LLP for their work in preparing this report.

Respectfully submitted,

Dr. Victor P. Hayek

INDEPENDENT AUDITOR'S REPORT

To the Governing Board Conejo Valley Unified School District Thousand Oaks, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Conejo Valley Unified School District (the District), as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Conejo Valley Unified School District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the 2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, issued by the California Education Audit Appeals Panel as regulations. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Conejo Valley Unified School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Conejo Valley Unified School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Conejo Valley Unified School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the Conejo Valley Unified School District's ability to continue as a going
 concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 17 through 26, budgetary comparison schedule - General Fund on page 87, schedule of changes in the District's Total OPEB liability and related ratios on page 88, schedule of the District's proportionate share of the net OPEB liability - MPP program on page 89, schedule of the District's proportionate share of the net pension liability on page 90-91 and the schedules of pension contributions on page 92-93 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be essential parts of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Conejo Valley Unified School District's basic financial statements. The accompanying supplementary information such as the combining and individual nonmajor fund financial statements and Schedule of Expenditures of Federal Awards, as required by Title 2 *U.S. Code of Federal Regulations (CFR)* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2024, on our consideration of the Conejo Valley Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Conejo Valley Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Conejo Valley Unified School District's internal control over financial reporting and compliance.

Mars, Levy V Matikin

Moss, Levy & Hartzheim, LLP Culver City, California December 10, 2024

This section of the Conejo Valley Unified School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2024, with comparative information for the fiscal year ended June 30, 2023. Please read it in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

Key financial highlights for FY 2024 are as follows:

- At fiscal year-end the District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources by \$(22,755,754) i.e. net position (deficit), an increase of \$8,948,795 in total net position over FY 2023.
- General revenues (property taxes and unrestricted revenue) accounted for \$ 233,345,960 or 76.39% of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$ \$72,118,821 or 23.61% of total revenues of \$305,464,781. Total expenses were \$296,515,986.
- The District has two major funds the General Fund, and the Building Fund.
- At the fiscal year ended of FY 2024, the fund balance of the General Fund, as required by GASB Statement No. 54, was \$56,206,675. Of this total, \$32,102,815 was unassigned. The General Fund had \$271,185,808 in revenues and transfers in, and \$270,865,190 in expenditures and transfers out, a increase in fund balance of \$320,618 from the prior fiscal year.
- Building Fund revenues and expenditures can vary significantly from one fiscal year to the next. The ending fund balance for FY 2024 was \$68,356,275, which was \$15,661,023 more than the prior fiscal year.

OVERVIEW OF FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the District and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business-type activities separately. These statements include all assets of the District (including capital assets), as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statement in regard to interfund activity, payables, and receivables.

The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.

The *Governmental Funds* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Proprietary Funds* reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows and are prepared using the economic resources measurement focus and the accrual basis of accounting.

The *Fiduciary Funds* are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The Primary unit of the government is the Conejo Valley Unified School District.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All the current fiscal year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report on the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's *operating results*. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the Statement of Net Position and the Statement of Activities, we present the District activities as follows:

Governmental Activities - The District reports all its services in this category. This includes the education of kindergarten through grade twelve students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS - CONT'D

Fund Financial Statements-Cont'd

Governmental Funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary Funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the **Statement of Net Position** and **the Statement of Revenues**, **Expenses**, **and Changes in Fund Net Position**. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities, such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS A TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for funds held on behalf of others, like our funds for scholarships. The District's fiduciary activities are reported in the *Fiduciary Funds - Statements of Net Position* and *Statement of Revenues, Expenses, and Changes in Fund Net Position*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE DISTRICT AS A WHOLE

Net Position

The District's net position (deficit) was \$(22,755,754) for the fiscal year ended June 30, 2024, an increase in net position from the prior fiscal year by \$8,948,795. Of this amount, \$(119,674,689) was unrestricted deficit. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the governing board's ability to use those net positions for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

THE DISTRICT AS A WHOLE - CONT'D

Net Position - Cont'd

Table 1 : Statement of Net Position

_	Governmental Activities						
· ·	June 30, 2024		June 30, 2023			Change	Percentage Change
Assets:							
Current and other assets	\$	214,626,043	\$	199,625,195	\$	15,000,848	7.51%

Deferred inflows of resources		24,605,196		33,177,680		(8,572,484)	-25.84%
Net position:							
Net investment in capital assets		58,097,562		50,104,909		7,992,653	15.95%
Restricted		38,821,373		35,293,134		3,528,239	10.00%
Unrestricted (Deficit)		(119,674,689)		(117,102,592)		(2,572,097)	2.20%
Total net position	\$	(22,755,754)	\$	(31,704,549)	\$	8,948,795	-28.23%

In comparing FY 2024 to the prior fiscal year, we note the following:

- Current and other assets increased by \$15,000,848.
- Capital assets increased by \$14,489,319.
- Long-term liabilities increased by \$22,117,178, primarily due to issuance of General Obligation bonds.
 For more information, see Note 9 Long-Term Obligations, in the "Notes to the Basic Financial Statements" section.
- Under GASB Statement No. 75, the OPEB liabilities in FY 2024 increased by \$2,060,664.
- Under GASB Statement No. 68, the net pension liabilities in FY 2024 increased by \$19,644,478. For more information on pension, see Note 10 Employee Retirement Systems, in the "Notes to the Basic Financial Statements" section.
- Current liabilities in FY 2024 decreased primarily due to timing differences in accounts payable balances as compared with FY 2023.
- Of our total net position, net investment in capital assets increased by \$7,992,653. The restricted net position increased by \$3,528,239. The unrestricted net position (deficit) increased by \$2,572,097.

THE DISTRICT AS A WHOLE - CONT'D

CHANGE IN NET POSITION

The results of this fiscal year's operations for the District as a whole are reported in the *Statement of Activities* on page 29. Table 2 takes the information from the Statement and rearranges them slightly so you can see our total revenues for the fiscal year.

Table 2 : Change in Net Position

_	Governmental Activities						
_				Percentage			
	June 30, 2024	June 30, 2023	Change	Change			
Revenues:							
Program revenues:							
Charges for services	\$ 544,370	\$ 537,324	\$ 7,046	1.31%			
Operating grants & contributions	71,574,451	72,710,221	(1,135,770)	-1.56%			
General revenues:							
Federal and State aid not restricted	67,131,383	66,828,928	302,455	0.45%			
Property Taxes	147,646,096	141,056,923	6,589,173	4.67%			
Other general revenues	18,568,481	13,546,936	5,021,545	37.07%			
Total revenues	305,464,781	294,680,332	10,784,449	3.66%			
Expenses:							
Instruction-related	204,152,644	188,975,744	15,176,900	8.03%			
Pupil services	28,471,428	26,420,854	2,050,574	7.76%			
General administration	15,370,900	14,016,352	1,354,548	9.66%			
Maintenance and operations	31,844,483	29,389,962	2,454,521	8.35%			
Other	16,676,531	15,409,386	1,267,145	8.22%			
Total expenses	296,515,986	274,212,298	22,303,688	8.13%			
Change in net position	8,948,795	20,468,034	(11,519,239)	-56.28%			
Net position - beginning	(31,704,549)	(47,586,378)	15,881,829	-33.37%			
Restatement		(4,586,205)	4,586,205	-100.00%			
Net position - beginning, restated	(31,704,549)	(52,172,583)	20,468,034	-39.23%			
Net position - ending	\$ (22,755,754)	\$ (31,704,549)	\$ 8,948,795	-28.23%			

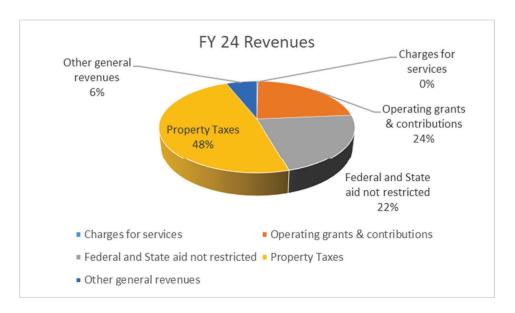

The most significant changes resulted in the following:

- Operating grants & contributions decreased as a result of the utilization of one-time State and Federal grants.
- Property tax collections were higher due to an increase in property assessed valuations.
- Other general revenues increased as a result of local grants and miscellaneous revenues.
- Expenses on instruction and instruction related services increased in FY 2024 due to use of State and Federal one-time funds, including carryover balances, labor negotiation settlements for increased salary expense, and increased health & welfare costs.
- Expenses on pupil services increased in FY 2024 as a result of labor negotiation settlements for increased salary expense, and increased health & welfare costs.

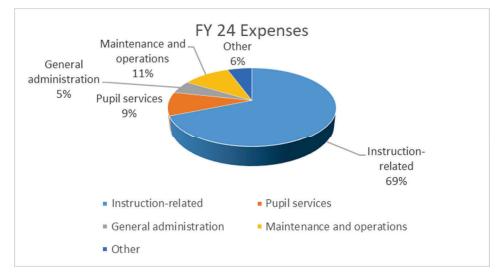

THE DISTRICT AS A WHOLE - CONT'D

CHANGE IN NET POSITION

District programs for FY 2024 cost \$296,515,986. To support those programs, the District garnered \$72,118,821 in program revenues. The balance of support came from property taxes and other general revenues. Since property tax collections amounted to \$147,646,096, the District's dependence upon tax revenues is apparent. The chart below shows FY 2024 revenues by category:

Instruction comprises 69% of District expenses. Support service expenses make up 31% of the total, with the balance being interest and fiscal charges. The accompanying chart displays FY 2024 expenses by category.

THE DISTRICT AS A WHOLE - CONT'D

Governmental Activities

As reported in the *Statement of Activities* on page 29, the net cost of all of our governmental activities this fiscal year was \$296,515,986. However, the amount that our taxpayers ultimately financed for these activities through local taxes was \$147,646,096 because the cost was paid by those who benefited from the programs \$544,370 or by other governments and organizations who subsidized certain programs with grants and contributions \$71,574,451. We paid for the remaining "public benefit" portion of our governmental activities with \$85,699,864 in Federal and State funds, and with other revenues, like interest and general entitlements.

In Table 3, we have presented the net cost of each of the District's largest functions. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3: Net Cost of Services

_	Net Cost of Services						
_				Percentage			
	June 30, 2024	June 30, 2023	Change	Change			
Instruction	\$ 137,892,717	\$ 122,759,813	\$ 15,132,904	10.97%			
Instruction - related services	26,167,242	24,795,636	1,371,606	5.24%			
Pupil services	10,602,857	7,112,634	3,490,223	32.92%			
General administration	13,567,876	11,580,518	1,987,358	14.65%			
Plant services	27,040,948	26,117,867	923,081	3.41%			
Interest and fiscal charges	5,117,689	4,868,982	248,707	4.86%			
Other	4,007,836	3,729,303	278,533	6.95%			
Total	\$ 224,397,165	\$ 200,964,753	\$ 23,432,412	10.44%			

The expense categories shown in Table 3 are summarized below.

- "Instruction" expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil.
- "Instruction-related services" and "pupil services" include the activities involved with assisting staff with
 the content and process of teaching to pupils, as well as direct non-instructional services to students
 (including health, library, transportation, and other services).
- "General administration" costs include expenses associated with the administrative and financial supervision of the District.
- "Plant services" involve keeping the school grounds, buildings, and equipment in good working condition
- "Other" includes expenses associated with the ancillary services, community services, enterprises services, and other outgo.
- "Interest and fiscal charges" involve the transactions associated with the payment of interest and other charges related to debt of the District.

THE DISTRICT'S FUNDS

As the District completed this fiscal year, our governmental funds reported a combined fund balance of \$166,692,663, which is an increase of \$16,269,514. (Table 4).

Table 4: District's Fund

_	Balances and Activity						
	June 30, 2023, restated	Revenues	Expenditures	Other Financing Sources/(Uses)	June 30, 2024	Change	Percentage Change
General fund Building fund Nonmajor governmental	\$ 55,886,057 52,695,252	\$ 271,185,808 3,128,399	\$ 266,778,929 17,058,740	\$ (4,086,261) 29,591,364	\$ 56,206,675 68,356,275	\$ 320,618 15,661,023	0.57% 29.72%
funds	41,841,840	42,363,982	47,312,918	5,236,809	42,129,713	287,873	0.69%
Total	\$ 150,423,149	\$ 316,678,189	\$ 331,150,587	\$ 30,741,912	\$ 166,692,663	\$ 16,269,514	10.82%

The primary reasons for these increases/decreases are:

- The General Fund is the District's principal operating fund. The fund balance in the General Fund increased by \$320,618. This can be attributed to effective and proactive general budget management and oversight as well as prudent business and staffing practices given the current enrollment environment.
- The Building Fund balance increased by \$15,661,023 from \$52,695,252 to \$68,356,275. This increase is attributed to issuance of additional General Obligation bonds.
- The Nonmajor Governmental Fund balance increased by \$287,873 from \$41,841,840 to \$42,129,713. This is attributed to the continued increase in childcare services coming out of the pandemic, and increased participation in the Child Nutrition universal free meal(s) program.

General Fund Budgetary Highlights

Over the course of the fiscal year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was approved on September 4, 2024 (A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 87.)

	Budget A	Amounts	Actual (GAAP	Variance with Final Budget Positive-
	Original	Final	Basis)	(Negative)
Total revenues	\$239,830,404	\$267,418,623	\$271,185,808	\$ 3,767,185
Total expenditures	246,137,739	286,996,679	266,778,929	20,217,750
·				
Excess/(deficiency) of revenues				
over/(under) expenditures	(6,307,335)	(19,578,056)	4,406,879	23,984,935
Total other financing sources/(uses)	(1,000,000)	(4,086,261)	(4,086,261)	
Net change in fund balance	\$ (7,307,335)	\$ (23,664,317)	\$ 320,618	\$ 23,984,935

CAPITAL ASSETS AND DEBT ADMINISTRATION:

Capital assets

At June 30, 2024, the District had 160,077,288 in a broad range of capital assets (net of depreciation), including land, construction in progress, buildings, furniture, and equipment. This amount represents a net increase (including additions, deductions, and depreciation) of \$14,489,319 from last fiscal year (Table 5).

Table 5 : Capital Assets

	Governmental Activites			
	June 30, 2024	June 30, 2023	Change	Percentage Change
Land and construction in progress	\$ 43,219,888	\$ 34,171,451	\$ 9,048,437	20.94%
Building and improvements	114,413,467	108,575,540	5,837,927	5.10% -16.25%
Equipment	2,443,933	2,840,978	(397,045)	-10.23%
Total	\$ 160,077,288	\$ 145,587,969	\$ 14,489,319	9.05%

Additional information on the District's capital assets can be found in Note 5 on page 57 of this report.

Long-Term Obligation

At the end of this fiscal year, the District had \$189,704,867 in long-term obligations outstanding versus \$167,610,047 last fiscal year, an increase of \$22,094,820. Long-term obligations consisted of:

Table 6: Outstanding Long-Term Debt

_	Governmental Activites			
	June 30, 2024	June 30, 2023	Change	Percentage Change
General obligation bonds (financed with				
property taxes)	\$ 175,544,498	\$ 153,583,116	\$ 21,961,382	12.51%
Premium on bond issuance	5,044,467	4,332,620	711,847	14.11%
Compensated absences (vacations)	943,161	919,617	23,544	2.50%
Claims liabilities (IBNR)	8,172,741	8,774,694	(601,953)	-7.37%
Total	\$ 189,704,867	\$ 167,610,047	\$ 22,094,820	11.65%

Additional information on the District's long-term obligations can be found in Note 9 on page 60 of this report.

Net Pension Liability and OPEB Liability

At fiscal year-end, the District had an aggregate net pension liability of \$209,077,996 and OPEB liability of \$25,042,308.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2024-25 fiscal year, the Board of Education and management used the following criteria:

- ♦ State Funding Model Local Control Funding Formula. Funded ADA average of the prior three fiscal years.
- ♦ Decline in District enrollment.
- ♦ Increase employee retirement program contribution rates, CalSTRS and CalPERS.
- ♦ Employee step and column increases.
- ♦ Teacher attrition.
- Minimum wage increase.
- Transportation, utility, and insurance expense increase.

District Staffing and enrollment forecasts:

Staffing Ratio

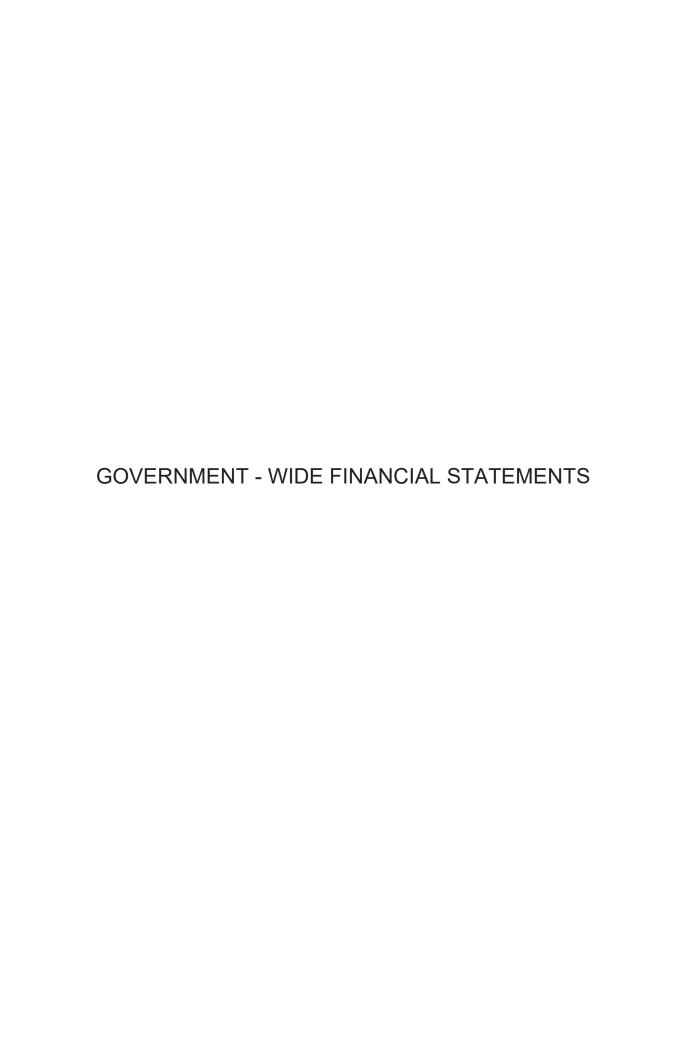

Transitional kindergarten	12:1
Grades kindergarten through third	21.5:1
Grades four through twelve	30:1
Independent Study	25:1

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact:

Deputy Superintendent of Business Services Conejo Valley Unified School District 750 Mitchell Rd., Newbury Park, California, 91320 or call 805-498-4557 x7501.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Fiscal Year Ended June 30, 2024

Net change in fund	balances	 government 	tal funds
--------------------	----------	--------------------------------	-----------

\$ 16,269,514

Amounts reported for governmental activities in the statement of activities are different because:

In governmental funds, the costs of capital assets, lease assets, and subscription assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets, lease assets, and subscription assets are allocated over their estimated useful lives and their lease terms as depreciation expense and amortization expense respectively. The difference between capital outlay expenditures and depreciation expense and amortization expense for the period is:

Expenditures for capital outlay:	\$ 23,255,437
Depreciation expense:	(8,731,265)

Net adjustment 14,524,172

In governmental funds, repayments of long term debt are reported as expenditures. In the government wide statements, repayments of long term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long term debt were:

8,145,522

In governmental funds, the entire proceeds from disposal of capital assets are reported as revenue. In the statement of activities, only the resulting gain or loss is reported. The difference between the proceeds from disposal of capital assets and the resulting gain or loss is:

(34,853)

In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium or discount, were:

(29,591,364)

In governmental funds, interest on long term debt is recognized in the period that it becomes due. In the government wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period, was:

(652, 133)

In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was:

(23,544)

In government funds, pension costs are recognized when employer contributions are made. in the statement of activities, pension costs are recognized on the accrual basis. This fiscal year, the difference between accrual basis pension costs and actual employer contributions was:

(2,166,423)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Fiscal Year Ended June 30, 2024

In governmental funds, OPEB expenses are recognized when employer OPEB contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. This fiscal year, the difference between OPEB expenses and actual employer OPEB contributions was:	(1,452,508)
In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government wide statements, the premium or discount, plus any deferred gain or loss from debt refunding, is amortized as interest over the life of the debt. Amortization of debt issue premium or discount, or deferred gain or loss from debt refunding, for the period is:	\$ (711,847)
Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost recovery basis. Because internal service funds are presumed to benefit governmental activities, internal service activities are reported as governmental in the statement of activities. The net increase in internal service funds was:	 4,642,259
Change in net position of governmental activities	\$ 8,948,795

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Conejo Valley Unified School District (the District) was unified on July 1, 1974, under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades K-12 as mandated by the State and/or Federal agencies. The District operates seventeen elementary schools, five middle schools, three high schools, a continuation high school, an adult education program, an alternative education site, and a preschool program.

The District's combined financial statements include the accounts of all its operations. The District evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the District's reporting entity, as set forth in GASB Statement No. 14 (as amended GASB Statement No. 61), "The Financial Reporting Entity," include whether:

- the organization is legally separate (can sue and be sued in its name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District Based on these criteria, the District has no component units.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Conejo Valley Unified School District, this includes general operations, food service, and student related activities of the District.

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions are typically financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and nonmajor governmental funds:

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

B. Basis of Presentation - Fund Accounting - Cont'd

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

Nonmajor Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund and that are reasonably expected to continue. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Student Activity Fund The District maintains a separate fund for each school that operates an ASB fund, whether it is organized or not.

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues that are restricted or assigned for adult education programs and are to be expended for adult education purposes only.

Child Development Fund The Child Development Fund is used to account separately for Federal, State, and local revenues to operate child development programs and is to be used only for expenditures for the operation of child development programs.

Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Deferred Maintenance Fund The Deferred Maintenance Fund is used to account separately for revenues that are restricted or committed for deferred maintenance purposes (*Education Code* Section 17582)

Capital Project Funds The Capital Project funds are used to account for and report financial resources to be used for the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

B. Basis of Presentation - Fund Accounting - Cont'd

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approval (*Education Code* Sections 17620-17626 and *Government Code* Section 65995 et seq.). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970- 65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

Special Reserve Fund for Capital Outlay Projects The Special Reserve Fund for Capital Outlay Projects is used to account for funds set aside for Board designated construction projects.

Debt Service Funds Debt service funds are established to account for the accumulation of resources for and the payment of principal and interest on long-term debt.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (*Education Code* Sections 15125-15262).

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service. The District has no enterprise funds.

Internal Service Fund Internal service funds may be used to account for any activity for which services are provided to other funds of the District on a cost-reimbursement basis. The District operates a workers' compensation program and a health and welfare benefits program that are accounted for in internal service funds.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of other parties in a trustee or agent capacity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Fiduciary funds are presented on an economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements.

Foundation Trust Fund The Foundation Trust Fund is used to account for assets held by the District as trustee.

C. Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each governmental function, and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

C. Basis of Accounting - Measurement Focus - Cont'd

Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented on the face of the proprietary fund statements.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared.

Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Proprietary Funds Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

C. Basis of Accounting - Measurement Focus - Cont'd

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. If the income from investments reported in one fund is assigned directly to another fund.

Unearned Revenue Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when the District receives resources prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which have not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance, and Net Position</u>

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2024, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at fiscal year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county investment pool are determined by the program sponsor.

Prepaid (Expenses)/ Expenditures

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures during the benefiting period.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental funds and expenses in the proprietary funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$10,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at fair value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation is computed using the straight-line method over the following estimated useful lives:

Asset Class
Buildings
Buildings
Estimated useful lives
20 to 40 years Improvements
Improvements
Equipment
5 to 40 years
2 to 15 years

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance, and Net Position - Cont'd</u>

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of net position.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to fiscal year-end that has not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds, capital leases, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance, and Net Position - Cont'd</u>

Debt Issuance Costs, Premiums, and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for pension and OPEB related items.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for lease revenue, pension, and OPEB related items.

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of CalSTRS Medicare Premium Payment (MPP) Program and additions to/deductions from the MPP's fiduciary net position have been determined on the same basis as they are reported by the MPP. For this purpose, the MPP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund</u> Balance, and Net Position - Cont'd

Leases

<u>Lessee</u>

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate
 charged by the lessor is not provided, the District generally uses its estimated incremental borrowing
 rate as the discount rate for leases.
- The lease term includes the non-cancellable period of the lease. Lease payments included in the
 measurement of the lease liability are composed of fixed payments and purchase option price that
 the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position. The District has no leases as a lessee.

Lessor

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund</u> Balance, and Net Position - Cont'd

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the non-cancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its leases, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Subscription-based information technology arrangements (SBITAs)

A right-to-use subscription asset is amortized over the subscription term, which is the noncancellable period of the arrangement. Amortization expense is recognized on a systematic basis over the shorter of the subscription term or the useful life of the underlying asset. The District has no SBITAs.

Fund Balances - Governmental Funds

As of June 30, 2024, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other actions as approved by the governing board.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund</u> Balance, and Net Position - Cont'd

Fund Balances - Governmental Funds - Cont'd

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

In fiscal year 2022-23, the governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted one-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses less STRS on-behalf contributions.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report \$38,821,373 of restricted net position.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charged to other funds for self-insurance. Operating expenses are necessary cost incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

E. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental activities columns of the statement of activities, except for the net residual amounts transferred between governmental and business-type activities.

F. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

G. Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Ventura bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

I. <u>Future Accounting Pronouncements</u>

GASB Statements listed below will be implemented in future financial statements:

Statement No. 101 "Compensated Absences"	The provisions of this statement are effective for fiscal years beginning after December 15, 2023.
Statement No. 102 "Certain Risk Disclosures"	The provisions of this statement are effective for fiscal years beginning after June 15, 2024.
Statement No. 103 "Financial Reporting Model Improvements"	The provisions of this statement are effective for fiscal years beginning after June 15, 2025.
Statement No. 104 "Disclosure of Certain Capital Assets"	The provisions of this statement are effective for fiscal years beginning after June 15, 2025.

NOTE 2 - DEPOSITS AND INVESTMENTS

A. Summary of Deposits and Investments

Governmental activities

Deposits and investments as of June 30, 2024, are classified in the accompanying financial statements as follows:

190.953.088

Fiduciary fund	5,67
Total Deposits and Investments	\$ 190,958,76
Deposits and investments as of June 30, 2024, o	consist of the following:
Cash in bank and on hand	\$ 3,486,47
Cash in revolving	425,30
Investments	187,046,98

NOTE 2 - DEPOSITS AND INVESTMENTS - CONT'D

B. Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

C. General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

	Maximum	Maximum	Maximum
	Remaining	Percentage of	Investment in
Authorized Investment Type	Maturity	Portfolio	One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	\$75 Million
Joint Powers Authority Pools	N/A	None	None

NOTE 2 - DEPOSITS AND INVESTMENTS - CONT'D

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the Ventura County Investment Pool.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

Investment Type	Carrying	12 Months	13 to 24	25-60	More Than 60
	Amount	or Less	Months	Months	Months
Ventura County Investment Pool	\$ 187,046,985	\$ 187,046,985	\$	\$ -	\$

E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

					Rating as	of Fiscal Ye	ear End
		Minimum	Exempt				
		Legal	From				Not
Investment Type	Amount	Rating	Disclosure	AAA	AA	Α	Rated
Ventura County							
Investment Pool	\$ 187,046,985	N/A	\$ -	\$ -	\$ -	\$ -	\$ 187,046,985

F. Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represent 5% or more of total District's investments.

G. Custodial Credit Risk

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits.

NOTE 2 - DEPOSITS AND INVESTMENTS - CONT'D

G. Custodial Credit Risk (Cont'd)

As of June 30, 2024, none of the District's deposits with financial institutions in excess of federal depository insurance limits were held in uncollateralized accounts.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as Ventura County Investment Pool).

NOTE 3 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Ventura County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.0033 net asset value per share.

The District's fair value measurements are as follows at June 30, 2024:

	Reported	
Investment Type	Amount	Uncategorized
Ventura County		
Investment Pool	\$ 187,046,985	\$ 187,046,985

NOTE 4 - RECEIVABLES

Receivables at June 30, 2024, consisted of intergovernmental grants, entitlements, interest, and other local sources. All receivables are considered collectible in full.

The District has an outstanding long-term obligation for incurred, but not reported, claims for the District's Internal Service Fund in the amount of \$8,172,741.

NOTE 9 - LONG-TERM OBLIGATIONS - CONT'D

F. Net Other Post Employment Benefit (OPEB) Liability

For the fiscal year ended June 30, 2024, the District reported net OPEB liability, deferred inflows of resources, deferred outflows of resources, and OPEB expense for the following plans:

OPEB Plan	Net OPEB Liability	С	Deferred outflows of Resources	Deferred Inflows of Resources	OP	EB Expense (Income)
District plan	\$ 24,251,815	\$	3,162,633	\$ (3,715,991)	\$	2,315,857
Medicare Premium Payment						
(MPP) Program	790,493					(54,430)
Totals	\$ 25,042,308	\$	3,162,633	\$ (3,715,991)	\$	2,261,427

The details of each plan are as follows:

District Plan

Plan Administration

The District's governing board administers the Postemployment Benefits Plan (the Plan). The Plan is a single employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for eligible retirees and their spouses. No assets are accumulated in a trust that meets the criteria of GASB Statement No. 75.

Plan Membership

The total OPEB liability was determined based on the plan membership as of June 30, 2024:

Inactive employees or beneficiaries currently receiving benefits	55
Participating active employees	1,170
Total number of participants	1,225

Benefits Provided

The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

	All Groups				
Benefit types provided	Medical Only				
Duration of Benefits	To Age 65				
Required Service	15 Years				
Minimum Age	Retirement				
Dependent Coverage	Self-Pay Only				
District Contribution %	100% less fixed employee contribution				
District Cap	HMO Plan Only				

NOTE 9 - LONG-TERM OBLIGATIONS - CONT'D

F. Net Other Post Employment Benefit (OPEB) Liability (Cont'd)

Contributions

The benefit payment requirements of Plan members and the District are established and may be amended by the District, the Conejo Valley Pupil Personnel Association (CVPPA), the local California Service Employees Association (CSEA), and unrepresented groups. The benefit payment is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements with the District, CVPPA, CSEA, and the unrepresented groups. For the fiscal year 2023-24, the District contributed \$654,991 (included \$266,290 of implicit rate subsidy) to the Plan which was used for current premiums.

Total OPEB Liability of the District

The District's total OPEB liability of \$24,251,815 was measured as of June 30, 2024, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2024.

Actuarial Assumptions

The total OPEB liability in the June 30, 2024, actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date June 30, 2024
Measurement date June 30, 2024
Funding policy Pay-as-you-go
Inflation rate 2.50 percent

Projected payroll growth 2.75 percent per annum, in aggregate long-term medical

Trend rates 4.00 percent

Discount rate

The discount rate was 3.93% as of June 30, 2024 and 3.65% as of June 30, 2023 for accounting disclosure purposes. This is based on the Bond Buyer 20 Bond Index.

Mortality

Participant type Morality tables

Certificated 2020 CalSTRS' Mortality

Classified 2021 CalPERS' Mortality for Miscellaneous and Schools Employees

2029	(120,876)
Thereafter	(419,389)
Total	\$ (553,358)

G. Medicare Premium Payment (MPP) Program

Plan Description

CalSTRS administers a cost sharing multiple-employer other postemployment benefit plan (OPEB), the Medicare Premiums Payment Program (MPP) for all eligible members of the State Teachers' Retirement plan that were retired or began receiving a disability allowance prior to July 1, 2012 and were not eligible for premium free Medicare Part A. CalSTRS administers the MPP Program through the Teachers' Health Benefits Fund. CalSTRS issues a publicly available financial report that can be obtained at https://www.calstrs.com/annual-comprehensive-financial-report.

Benefits Provided

The Medicare Premiums Payment Program (MPP) provides all employees' Medicare Part A premiums and Medicare Part A and B late enrollment surcharges for eligible members of the State Teachers' Retirement plan that were retired or began receiving a disability allowance prior to July 1, 2012 and were not eligible for premium free Medicare Part A.

NOTE 9 - LONG-TERM OBLIGATIONS - CONT'D

G. Medicare Premium Payment (MPP) Program (Cont'd)

Contribution

Since the plan is only for employees retired or receiving a disability allowance prior to July 1, 2012, the plan is funded on a pay-as-you go basis. The premium rates for Medicare A for employees without 30-39 quarters of Medicare employment was \$499 from July 1, 2022 to December 31, 2022 and \$506 from January 1, 2023 to June 30, 2023. The premium rates for Medicare A for employees with 30-39 quarters of Medicare employment was \$274 from July 1, 2022 to December 31, 2022 and \$278 from January 1, 2023 to June 30, 2023. Employees are not required to contribute to the OPEB plan.

OPEB Liabilities and OPEB Expense

At June 30, 2024, the District reported a liability of \$790,493 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using standard update procedures. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school. At June 30, 2023, the District's proportion was .0260513%, which was an increase of 0.004018% from its proportion measured as of June 30, 2022.

For the fiscal year ended June 30, 2024, the District recognized OPEB income of \$54,430.

Actuarial Assumptions

The District's net OPEB liability was measured as of June 30, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2022 that was rolled forward to determine the June 30, 2023 total OPEB liability, based on the following actuarial methods and assumptions:

Discount rate 3.65% Investment rate of return 3.65%

Mortality rate 110% of ultimate improvement factor from MP-2019

tables issued by the Society of Actuaries

Medicare Part A premium costs trend rate4.50%Medicare Part B premium costs trend rate5.40%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP–2019) table issued by the Society of Actuaries.

NOTE 9 - LONG-TERM OBLIGATIONS - CONT'D

G. Medicare Premium Payment (MPP) Program (Cont'd)

Change in Assumptions

For the June 30, 2022, actuarial valuation, the discount rate was increased from 3.54 percent to 3.65 percent.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.65 percent. The MPP Program is funded on a pay-as-you-go basis and under this method, the OPEB plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, a discount rate of 3.64 percent, which is the Bond Buyer 20-Bond GO Index as of June 30, 2023, was applied to all periods of projected benefit payments to measure the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

	1% Decrease		Disc	Discount Rate		√ Increase
		2.65%		3.65%		4.65%
District's proportionate share of the net OPEB liability	\$	859,103	\$	790,493	\$	730,836

Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the net OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2023:

	Current					
	1% Decrease Healthcare Cost 1% Inc			Increase		
	(3.5% Part A (4.5% Part A and		(5.	5% Part A		
	and 4	4.4% Part B)	5.4	% Part B)	and 6	6.4% Part B)
District's proportionate share of the net OPEB liability	\$	727,332	\$	790,493	\$	861,799

OPEB Plan Fiduciary Net Position

The MPP Program is funded on a pay-as-you-go basis with contributions generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds within the MPP Program as of June 30, 2023, were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund, which is a pooled investment program administered by the State Treasurer. For more information on the Surplus Money Investment Fund, see https://www.treasurer.ca.gov/pmia-laif/pmia/index.asp.

Payables to the OPEB Plan

At June 30, 2024, the District had no amount outstanding for contributions to the OPEB plan required for the fiscal year ended June 30, 2024.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2024, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

	Proportionate	Deferred			Р	roportionate
Pension	Share of Net	Outflows of	De	ferred Inflows	Sha	are of Pension
Plan	Pension Liability	Resources	of	Resources	Ехр	ense (Income)
CalSTRS	\$ 134,144,048	\$ 41,882,346	\$	19,351,367	\$	20,689,501
CalPERS	74,933,948	26,182,353		1,263,954		12,645,010
Total	\$ 209,077,996	\$ 68,064,699	\$	20,615,321	\$	33,334,511

<u>California State Teachers' Retirement System (CalSTRS)</u>

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS) Plan Description

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2022, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS' audited financial information are publicly available reports that can be found on the CalSTRS' website under Publications at: http://www.calstrs.com/general-information/gasb-6768.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California State Teachers' Retirement System (CalSTRS) - Cont'd

Benefits Provided - Cont'd

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program; thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2024, are summarized as follows:

	STRP Defined Benefit Program			
	Before	On or After January 1,		
Hire Date	January 1, 2013	2013		
Benefit Formula	2% at 60	2% at 62		
Benefit Vesting Schedule	5 Years	5 Years		
Benefit Payments	Monthly for Life	Monthly for Life		
Retirement Age	50-63	55-65		
Monthly benefits, as a % of eligible compensation	2.0% to 2.4%	2.00%		
Required employee contribution rates (Average)	10.250%	10.205%		
Required employer contribution rates	19.100%	19.100%		
Required state contribution rates	10.828%	10.828%		

Specific details for the retirement, disability or death benefit calculations for each of the pension plans are available in the CalSTRS' Annual Comprehensive Financial Report (ACFR). The CalSTRS' ACFR is available online at http://www.calstrs.com/annual-comprehensive-financial-report.

Contributions - Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

On-Behalf Payments – The District was the recipient of on-behalf payments made by the State of California to CalSTRS for K-12 education. These payments consist of state general fund contributions to CalSTRS.

For the fiscal year ended June 30, 2024, the contributions recognized as part of pension expense were as follows:

Contribution - employer	\$ 20,830,821
Contribution – state on-behalf payments	\$ 10,280,077

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California State Teachers' Retirement System (CalSTRS) - Cont'd

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 134,144,048
State's proportionate share of the net pension liability	
associated with the District	63,276,365
Total	\$ 197,420,413

The District's net pension liability is measured as a proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share for the measurement period June 30, 2023 and June 30, 2022, was a follows:

Measurement Dates	Fiscal Year	CalSTRS
June 30, 2022	2022-23	0.17091
June 30, 2023	2023-24	0.17613

For the fiscal year ended June 30, 2024, the District recognized pension expense/(income) of \$20,689,501. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	10,541,901	\$	7,175,377
Changes of assumptions		776,716		
Changes in proportions		7,429,813		2,930,556
Net difference between projected and actual				
earnings on pension plan investments		567,478		
Differences between District contributions				
and proportionate share of contributions		983,855		9,245,434
District contributions subsequent to the				
measurement date		21,582,583		
Total	\$	41,882,346	\$	19,351,367

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California State Teachers' Retirement System (CalSTRS) - Cont'd

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – Cont'd

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows/(inflows) of resources related to pensions will be recognized as pension expense as follows:

	Recognized Net		
Fiscal Year	De	eferred Outflows	
Ended June 30	(Inflo	ows) of Resources	
2025	\$	(4,306,925)	
2026		(7,145,606)	
2027		10,866,828	
2028		170,905	
2029		(405,505)	
Thereafter		1,768,699	
Total	\$	948,396	

Actuarial Methods and Assumptions

The total pension liability for the STRP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2022, and rolling forward the total pension liability to June 30, 2023. In determining the total pension liability, the financial reporting actuarial valuation used the following methods and assumptions:

	CalSTRS
Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Experience Study	July 1, 2015-June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return ¹	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB (annually)
	Maintain 85% purchasing power level for DB
	Not applicable for DBS/CBB

¹Net of investment expenses but gross of administrative expenses.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California State Teachers' Retirement System (CalSTRS) - Cont'd

Discount Rate

The discount rate used to measure the total pension liability was 7.10%, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers are made at statutory contribution rates in accordance with the rate increases. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return of 7.10% and assume that contributions, benefit payments and administrative expenses occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term investment rate of return assumption was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2023, are summarized in the following table:

		Long-Term*
	Assumed Asset	Expected Real
Asset Class	Allocation	Rate of Return
Public Equity	38%	5.25%
Real Estate	15%	4.05%
Private Equity	14%	6.75%
Fixed Income	14%	2.45%
Risk Mitigating Strategies	10%	2.25%
Inflation Sensitive	7%	3.65%
Cash/Liquidity	2%	0.05%
Total	100%	

^{*20-}year average. Real rates of return are net of assumed 2.75% inflation.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California State Teachers' Retirement System (CalSTRS) - Cont'd

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

1% Decrease	6.10%
Net Pension Liability	\$ 225,015,935
Current Discount Rate	7.10%
Net Pension Liability	\$ 134,144,048
1% Increase	8.10%
Net Pension Liability	\$ 58,664,353

Mortality

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP–2019) table issued by the Society of Actuaries.

Pension Plan Fiduciary Net Position

Detailed information about pension plan's fiduciary net position is available in the separately issued CalSTRS' financial reports.

Payable to the Pension Plan

At June 30, 2024, the District had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2024.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California Public Employees Retirement System (CalPERS)

Plan Description

Plan Description - The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Plan membership consists of non-teaching and non-certificated employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate annual comprehensive financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS' Executive Office, 400 P Street, Sacramento, California 95814.

Benefits Provided

The CalPERS' Defined Benefit Program has two benefit formulas:

CalPERS 2% at 55: Members first hired on or before December 31, 2012, to perform services that could be creditable to CalPERS.

CalPERS 2% at 62: Members first hired on or after January 1, 2013, to perform services that could be creditable to CalPERS.

The Defined Benefit Program provides retirement benefits based on members' final compensation, age, and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members.

After earning five years of credited service, members become 100 percent vested in retirement benefits.

A family benefit is available if an active member dies and has at least one year of credited service.

Members' accumulated contributions are refundable with interest upon separation from CalPERS. The board determines the credited interest rate each fiscal year.

The member's benefit is reduced dollar for dollar, regardless of age, for the first 180 days after retirement if the member performs activities in the public schools that could be creditable to CalPERS, unless the governing body of the school district takes specified actions with respect to a member who is above normal retirement age.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California Public Employees Retirement System (CalPERS) (Cont'd)

The CalPERS' provisions and benefits in effect at June 30, 2024 are summarized as follows:

	Before	On or After
Hire Date	January 1, 2013	January 1, 2013
Benefit Formula	2% at 55	2% at 62
Benefit Vesting Schedule	5 Years	5 Years
Benefit Payments	Monthly for Life	Monthly For Life
Retirement Age	50-63	52-67
Monthly benefits, as a % of eligible compensation	1.17 - 2.5%	1.0 - 2.5%
Required employee contribution rates (Average)	7.000%	8.000%
Required employer contribution rates	26.680%	26.680%

Specific details for retirement, disability or death benefit calculations for each of the pension plans are available in the CalPERS' Annual Comprehensive Financial Report (ACFR). The CalPERS' ACFR is available online at https://www.calpers.ca.gov/page/forms-publications.

Contributions – Section 20814 (c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employees be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Local Government is required to contribute the difference between the actuarially determined rate of employees.

For the fiscal year ended June 30, 2024, the contributions recognized as part of pension expense were as follow:

Contribution - employer \$ 9,226,356

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2024, the District reported net pension liabilities for its proportionate share of the CalPERS' net pension liability totaling \$74,933,948. The net pension liability was measured as of June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California Public Employees Retirement System (CalPERS) (Cont'd)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions (Cont'd)

The District's proportionate share for the measurement period June 30, 2023 and June 30, 2022, were as follows:

Measurement Dates	Fiscal Year	CalPERS	
June 30, 2022	2022-23	0.20540	
June 30, 2023	2023-24	0.20701	

For the fiscal year ended June 30, 2024, the District recognized pension expense/(income) of \$12,645,010. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Def	erred Outflows	Def	erred Inflows	
	0	f Resources	of Resources		
Difference between expected and actual experience	\$	2,734,551	\$	1,150,875	
Changes of assumptions		3,452,177			
Changes in proportions		1,465,018		18,292	
Net difference between projected and actual					
earnings on pension plan investments		8,004,017			
Differences between District contributions					
and proportionate share of contributions		7,754		94,787	
District contributions subsequent to the					
measurement date		10,518,836			
Total	\$	26,182,353	\$	1,263,954	

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows of resources and deferred inflows of resources reported will be amortized in the proportionate share of pension expense as follows:

	Recognized Net			
	Deferred Outflows			
Fiscal Year	(Inflows) of			
Ended June 30	Resources			
2025	\$ 4,359,111			
2026	3,561,297			
2027	6,230,061			
2028	249,094			
Total	\$ 14,399,563			

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California Public Employees Retirement System (CalPERS) (Cont'd)

Actuarial Assumptions

The total pension liability for the June 30, 2023, measurement period was determined by an actuarial valuation as of June 30, 2022, with updated procedures used to roll forward the total pension liability to June 30, 2023.

The total pension liability was based on the following assumptions:

	CalPERS
Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Investment Rate of Return	6.90%
Inflation	2.30%
Salary increases	Varies by Entry Age and Service
Mortality Rate Table1	Derived using CalPERS'
	Membership Data for all Funds
Post-retirement Benefit Increases	2.00% until PPPA floor on
	purchasing power applies,
	2.30% thereafter

¹The mortality table was developed based on CalPERS'-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries.

Long-term Expected Rate of Return

In determining the long-term expected rate of return, CalPERS considered long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California Public Employees Retirement System (CalPERS) (Cont'd)

Long-term Expected Rate of Return (Cont'd)

The expected real rates of return by asset class are as follows:

	Assumed	
	Asset	Real Return
Asset Class	Allocation	Years 1 - 10 (1),(2)
Global Equity - Cap-Weighted	30.0%	4.54%
Global Equity - Non-Cap-Weighted	12.0%	3.84%
Private Equity	13.0%	7.28%
Treasury	5.0%	0.27%
Mortgage-backed Securities	5.0%	0.50%
Investment Grade Corporate	10.0%	1.56%
High Yield	5.0%	2.27%
Emerging Market Debt	5.0%	2.48%
Private Debt	5.0%	3.57%
Real Estate	15.0%	3.21%
Leverage	-5.0%	-0.59%
Total	100%	

- (1) An expected inflation of 2.30% used for this period.
- (2) Figures are based on the 2021-22 Asset Liability Management study.

Discount Rate

The discount rate used to measure the total pension liability for PERF B was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 10 - EMPLOYEE RETIREMENT SYSTEMS - CONT'D

California Public Employees Retirement System (CalPERS) (Cont'd)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.90 percent) or 1-percentage-point higher (7.90 percent) than the current rate:

1% Decrease	5.90%
Net Pension Liability	\$ 108,335,119
Current Discount Rate	6.90%
Net Pension Liability	\$ 74,933,948
•	
1% Increase	7.90%
Net Pension Liability	\$ 47,328,640

Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use Social Security as its alternative plan.

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS' and CalSTRS' annual comprehensive financial reports.

Payable to the Pension Plan

At June 30, 2024, the District had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2024.

NOTE 11 - FUND BALANCES

Fund balances at June 30, 2024, are composed of the following elements:

	General Fund		Building Fund	Non-Major overnmental Funds	Total

NOTE 12 - RISK MANAGEMENT

A. Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During the fiscal year ending June 30, 2024, the District participates in the Ventura County Schools Self-Funding Authority (VCSSFA) for property and liability insurance coverage. See Note 15 for more information on the VCSSFA. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior fiscal year.

NOTE 12 - RISK MANAGEMENT - CONT'D

B. Workers' Compensation and Employee Medical Benefits

The District's workers' compensation and health and welfare benefits are recorded in the Internal Service Funds. The purpose of the fund is to administer workers' compensation, and employee medical benefit claims. The District has obtained insurance coverage that will cover claims within the following ranges to supplement its self- insurance program:

Insurance Program/		
Company Name	Type of Coverage	Liability/Deductible
Self-insured	Workers' Compensation	\$750,000 per claim up to statutory limits
Self-insured	Medical and prescription drugs	\$300,000 per contract period
VCSSFA		per person \$50,000 per claims

C. Claims Liabilities

The District records an estimated liability for workers' compensation, and health and welfare benefits claims against the District. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred, but not reported based on historical experience.

D. Unpaid Claims Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represent the changes in approximate aggregate liabilities for the District from July 1, 2021, to June 30, 2024:

Workers'						
	Compensation		H	Health Care		Total
Liability Balance, June 30, 2021	\$	5,405,644	\$	2,046,389	\$	7,452,033

Claims payments		1,828,396		11,740,012		13,568,408
Liability Balance, June 30, 2022		5,405,644	•	2,046,389		7,452,033
Claims and changes in estimates		3,330,643		25,015,346		28,345,989
Claims payments		(2,007,982)		(25,015,346)		(27,023,328)
Liability Balance, June 30, 2023		6,728,305		2,046,389		8,774,694
Claims and changes in estimates		1,008,705		29,058,166		30,066,871
Claims payments		(1,610,658)		(29,058,166)		(30,668,824)
Liability Balance, June 30, 2024	\$	6,126,352	\$	2,046,389	\$	8,172,741
Assets available to pay claims at June 30, 2024	\$	8,897,135	\$	21,191,113	\$	30,088,248

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2024.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2024.

Construction Commitments

As of June 30, 2024, the District had the following commitments with respect to the unfinished capital projects:

Capital Projects	Remaining Construction Commitment		Expected Date of Completion	
Banyan ES Campus Wide Modernization Colina MS Campus Wide Modernization EARTHS Magnet Fire Alarm Modernization Ladera Stars ES Fire Alarm Modernization Newbury Park HS Campus Wide Modernization Redwood MS Campus Wide Modernization Thousand Oaks HS Locker Rooms Walnut ES Campus Wide Modernization Westlake Hills ES Campus Wide Modernization	\$	11,271 29,526 9,600 5,600 445,181 700,418 907 8,963 2,770	2025 2025 2025 2025 2025 2025 2025 2025	
	\$	1,214,236		

NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS, JOINT POWERS AUTHORITIES AND OTHER RELATED PARTY TRANSACTIONS

The District is a member of the Ventura County Schools Self-Funding Authority (VCSSFA) public entity risk pool. The District pays an annual premium to the VCSSFA for its property liability coverage. The relationship between the District and the pool is such that it is not a component unit of the District for financial reporting purposes.

This entity has budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entity and the District are included in these statements. Audited financial statements are generally available from the respective entity.

During the fiscal year ended June 30, 2024, the District made payments of \$3,777,243 to VCSSFA for services received.

NOTE 15 – RESTATEMENTS

The District restated the beginning fund fund balances of the following funds due to:

State funding in an amount of \$573,107 recorded under Cafeteria fund in prior fiscal year should have been recorded under General fund.

NOTE 16 – SUBSEQUENT EVENTS

On December 12, 2024, the District issued a 2024 General Obligation Refunding Bonds in an amount of \$26,010,000 to advance refund the General Obligation Bonds Election of 2014, Series A.

CONEJO VALLEY UNIFIED SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2024

NOTE 1 - PURPOSE OF SCHEDULES

A. Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United State of America as prescribed by the Governmental Accounting Standards Board and provisions of the California *Education Code*. The governing board is required to hold a public hearing and adopt an operating budget no later than July 1 of each year. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

This schedule presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations. The District's major fund did not exceed the budgeted amount in total.

For the fiscal year ended June 30, 2024, the District incurred an excess of expenditures over appropriations in individual major funds presented in the Budgetary Comparison Schedule by major object code as follows:

	Expenditures and Other Uses					
	Budget	Actual	Excess			
General fund						
Employee benefits	\$ 68,032,720	\$ 74,761,320	\$ (6,728,600)			
Other outgo	1,324,833	1,470,304	(145,471)			

B. Schedule of Changes in the District's Total OPEB Liability and Related Ratios

This 10-year schedule is required by GASB Statement No. 75 for all sole and agent employers that provide other postemployment benefits (OPEB). Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 75 was applicable. The schedule presents the sources of change in the total OPEB liability, and the components of the total OPEB liability and related ratios, including the total OPEB liability as a percentage of covered-employee payroll.

Changes in Benefits Terms

There were no changes in the benefit terms since the previous valuation.

Changes of Assumptions

Changes of assumptions and other inputs reflect a change in the discount rate from 3.65 percent to 3.93 percent since the previous valuation.

Fiscal year 2018 was the 1st year of implementation. Therefore, only 7 years are shown.

CONEJO VALLEY UNIFIED SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2024

NOTE 1 - PURPOSE OF SCHEDULES - CONT'D

C. Schedule of the District's Proportionate Share of the Net OPEB Liability – MPP Program

Changes in Benefits Terms

There were no changes in the benefits terms since the previous valuation.

Changes of Assumptions

The plan rate of investment return assumption was changed from 3.54% to 3.65% since the previous valuation.

D. Schedule of the District's Proportionate Share of the Net Pension Liability

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. The schedule presents the District's proportion (percentage) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability, the District's covered payroll, the District's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for CalSTRS and CalPERS.

Changes in Assumptions

There were no changes in economic assumptions since the previous valuations for CalSTRS. There were no changes in economic assumptions since the previous valuations for CalPERS.

E. Schedule of District Contributions

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. The schedule presents the District's statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the difference between the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution as a percentage of the District's covered payroll.

The General Fund balance has increased by \$15,676,561 over the past two fiscal years. The fiscal year 2024-25 budget projects a decrease of \$14,936,854 (-26.57% percent). For a district this size, the State recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo). The District met this requirement.

The District has incurred operating surpluses in all of the past three years and anticipates incurring an operating deficit during the 2024-25 fiscal year. Total long-term obligations have increased by \$19,999,779 over the past two fiscal years.

Average daily attendance has decreased by 687 over the past two fiscal years. A decrease of 114 ADA is anticipated during fiscal year 2024-25.

See accompanying note to supplementary information

¹ Budget 2025 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

CONEJO VALLEY UNIFIED SCHOOL DISTRICT NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2024

NOTE 1 - PURPOSE OF SCHEDULES

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

There were no audit findings which resulted in necessary revisions to attendance.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Districts must maintain their instructional minutes as defined in Education Code Section 46207(a). The District met or exceeded its targeted funding.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

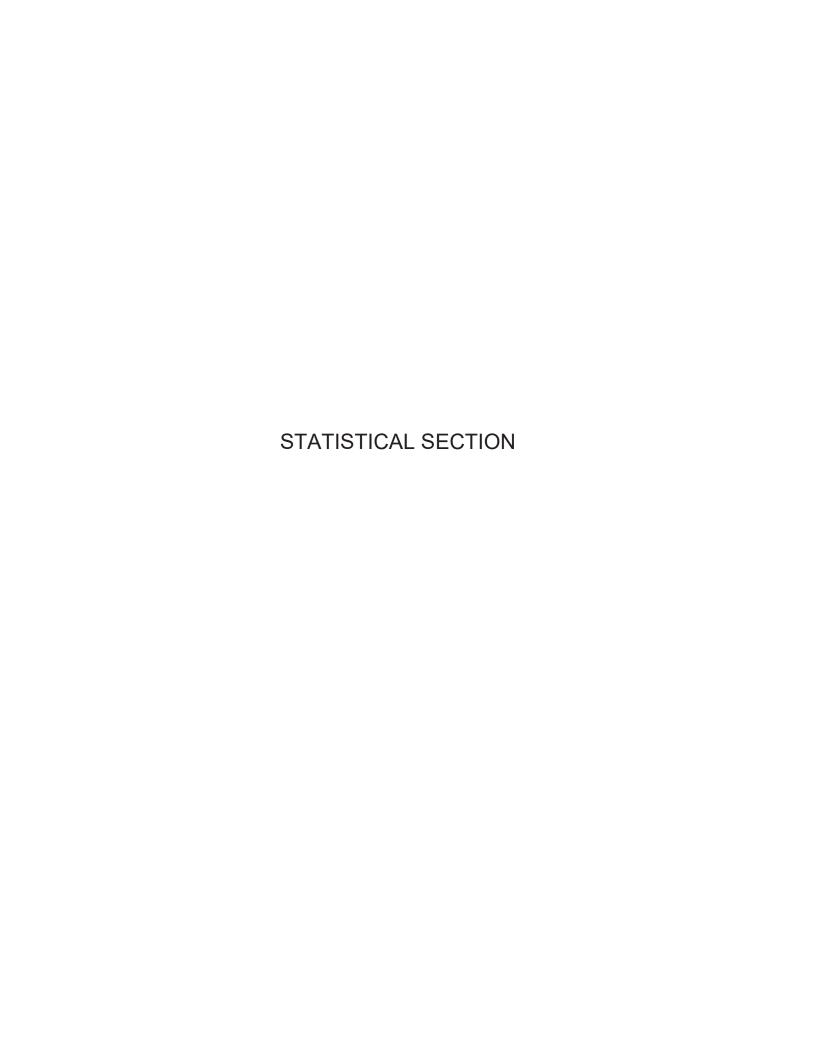

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Nonmajor Governmental Funds - Combining Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances

The Nonmajor Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances are included to provide information regarding the individual funds that have been included in the Nonmajor Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

The Statistical Section presents information useful in giving the reader an overall understanding of the school district as well as an historical perspective regarding financial information in this report. Unless noted otherwise, historical data is presented for the most recent ten-year period. The information in this section helps the reader better understand the overall financial health of the district.

Financial Trends

These schedules contain trend information to help the reader understand how the district's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.

Economic and Demographic Information

These schedules offer economic and demographic indicators to help the reader understand the environment within which the district's financial activities take place.

Operating Information

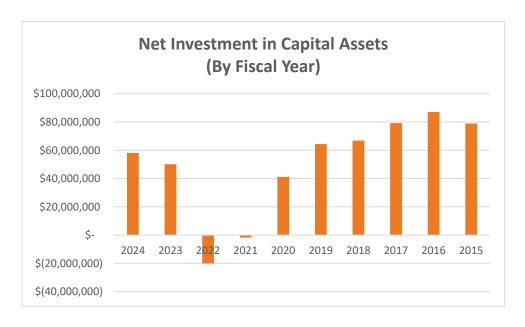

These schedules contain service and capital asset data to help the reader understand how the information in the financial report relates to the services the district provides and the activities it performs.

CONEJO VALLEY UNIFIED SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2024

NOTE 1 - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE 2 - INDIRECT COST RATE

The District has not elected to use the 10-percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

NOTE 3 - PAYMENT PASS THROUGH TO OTHER AGENCIES

For the fiscal year ended June 30, 2024, the District did not have payments passed through to other agencies.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Governing Board Conejo Valley Unified School District Thousand Oaks, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Conejo Valley Unified School District (the District) as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Conejo Valley Unified School District's basic financial statements, and have issued our report thereon dated December 10, 2024

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Conejo Valley Unified School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Conejo Valley Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Conejo Valley Unified School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Conejo Valley Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Governing Board Conejo Valley Unified School District Thousand Oaks, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Conejo Valley Unified School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Conejo Valley Unified School District's major federal programs for the fiscal year ended June 30, 2024. Conejo Valley Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Conejo Valley Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Conejo Valley Unified School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Conejo Valley Unified School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Conejo Valley Unified School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Conejo Valley Unified School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Conejo Valley Unified School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
 design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding Conejo Valley Unified School District's compliance
 with the compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circumstances.
- Obtain an understanding of Conejo Valley Unified School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Conejo Valley Unified School District's internal control over compliance. Accordingly, no such opinion is expressed.
- We are required to communicate with those charged with governance regarding, among other
 matters, the planned scope and timing of the audit and any significant deficiencies and material
 weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE REPORTING

To the Governing Board Conejo Valley Unified School District Thousand Oaks, California

Report on State Compliance

Qualified and Unmodified Opinion on State Compliance

We have audited the Conejo Valley Unified School District's (the District) compliance with the types of compliance requirements described in the 2023-2024 Guide for Annual Audits of California K-12 Local Educational Agencies and State Compliance Reporting, prescribed by Title 5, California Code of Regulations, Section 19810 that could have a direct and material effect on each of Conejo Valley Unified School District's state programs identified below for the fiscal year ended June 30, 2024.

Qualified opinion on After School Education and Safety Program.

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the Conejo Valley Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other state compliance for the fiscal year ended June 30, 2024.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the 2023-2024 Guide for Annual Audits of California K-12 Local Educational Agencies and State Compliance Reporting, prescribed by Title 5, California Code of Regulations, Section 19810. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Matters Giving Rise to Qualified Opinion on After School Education and Safety Program.

As described in the accompanying schedule of findings and questioned costs, the District did not comply with requirements regarding the After School Education and Safety Program (see Findings 2024-001) Compliance with such requirements is necessary, in our opinion, for the District to comply with the requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above, and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to its state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether a material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the 2023-2024 Guide for Annual Audits of California K-12 Local Educational Agencies and State Compliance Reporting will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the District's compliance with the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the 2023-2024 Guide for Annual Audits of California K-12 Local Educational Agencies and State Compliance Reporting, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding the District's compliance with the compliance requirements referred to
 above and performing such other procedures as we consider necessary in the circumstances;
- Obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances, and to test and report on
 internal control over compliance in accordance with the 2023-2024 Guide for Annual Audits of
 California K-12 Local Educational Agencies and State Compliance Reporting, but not for the purpose
 of expressing an opinion on the effectiveness of the Conejo Valley Unified School District's internal
 control. Accordingly, we express no such opinion.
- Select and test transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

	Procedures
Compliance requirements LOCAL EDUCATION AGENCIES OTHER THAN CHARTER SCHOOL	Performed
Attendance reporting	Yes
Teacher certification and misassignments	Yes
Kindergarten continuance	Yes
Independent study	Yes
Continuation education	Not applicable

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identify during the audit.

Not Applicable

Charter school facility grant program

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the noncompliance findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify deficiency in internal control over compliance that we consider to be significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention from those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs, as items 2024-001 to be significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the 2023-2024 Guide for Annual Audits of California K-12 Local Educational Agencies and State Compliance Reporting. Accordingly, this report is not suitable for any other purpose.

Mores, Keny V shatistin Culver City, California

December 10, 2024

The term "not applicable" is used above to mean either Conejo Valley Unified School District did not offer the program during the current fiscal year or the program applies to a different type of local education agency.

SECTION I - SUMMARY OF AUDITOR'S RESULTS

Financial	Statements
------------------	-------------------

Type of auditor's report issued: <u>Unmodified</u>

Internal control over financial reporting:

Material weakness(es) identified?

Significant deficiency(ies) identified? <u>None reported</u>

Noncompliance material to financial statements noted? <u>No</u>

Federal Awards

Internal control over major Federal programs:

Material weakness(es) identified?

Significant deficiency(ies) identified?

None reported

Type of auditor's report issued on compliance for

Major Federal programs: <u>Unmodified</u>

Any audit findings disclosed that are required to be

reported in accordance with Section 200.516(a) of the

Uniform Guidance?

Identification of major programs:

Assistance Listing Number(s)

Name of Federal Program or Cluster

84.184H School-Based Mental Health

Services Grant Program

84.027,84.173 Special Education (IDEA) Cluster

Dollar threshold used to distinguish between type A

and type B programs: \$750,000

Auditee qualified as low-risk auditee? <u>Yes</u>

State Awards

Internal control over major Federal programs:

Material weakness(es) identified? No Significant deficiency(ies) identified? Yes

Type of auditor's report issued on compliance for state

programs: <u>Unmodified*</u>

^{*}Unmodified for all programs except for After School Education and Safety Program

2024-001

40000 – After School Education and Safety Program (Significant Deficiency & Material Noncompliance)

Criteria:

The legislation governing the ASES programs requires that programs provide students with a safe environment, academic support, and educational enrichment. Every student attending a school operating a program is eligible to participate in the program, subject to program capacity (*EC* Section 8482.6). The after-school program is required to report the total days of operation and the number of students served at each school site on a semi-annual basis to the California Department of Education. The after-school program must maintain proper documentation to support the total number of days operated as well as the total number of students served each day.

According to the California Education Code Section 8483(a)(2), it is the intent of the Legislature that elementary and middle school or junior high school pupils participate in the full day of the program every day during which pupils participate, except as allowed by the early release policy. Pupil attendance records must be maintained to verify and support the program's compliance with this requirement.

According to the California Education Code Section 8483.7(a)(6), the after-school program shall provide an amount of cash or in-kind local funds equal to not less than one-third of the total grant from the school District, governmental agencies, community organizations, or the private sector. Facilities or space usage may fulfill not more than 25 percent of the required local contribution. The after-school program must maintain proper documentation to support LEA contributed cash or in-kind local funds information.

Condition: During our compliance testing over the ASES program the following deficiencies are noted.

- For the tested period, the school site was not able to provide reconciled supporting worksheets to support the data reported to the California Department of Education.
- For the tested period, the school site did not have the early release form filled out by the parents/guardian on all early released students.
- The District was not able to provide supporting documentation on the contributed cash or in-kind local funds.

Questioned Costs: There were no questioned costs associated with the condition identified.

Context: The condition identified resulted from our review of Glenwood Elementary's attendance records and monthly attendance summary totals for the month of November 2023 and April 2024. The auditor selected one out of two schools for the first semiannual reporting period dated August to December 2023 and the second semiannual reporting period dated January to June 2024. The auditor reviewed photocopies sign-in/sign out log for the week of November 13, 2023 and the week of April 8, 2024, the attendance summary and detail reports, and 1st Half and 2nd Half: After School Base report submitted to the CDE. The auditor requested the supporting documentation about LEA contributed cash or in-kind local funds information and no information were provided.

Effect: As a result of our testing, the District was not compliant with California Education Code Section 8482.6/8483(a)(2) for the 2023-2024 fiscal year since pupil attendance documentation was not maintained to support the total reported pupil attendance record. Also, the District was not compliant with California Education Code Section 8483.7(a)(6) since the District did not maintain the documentation to support the information about LEA contributed cash or in-kind local funds.

Cause: The District lacks oversight and has inadequate controls over its ASES program necessary to ensure compliance with ASES program requirements, or that all student attendance records are properly maintained.

Repeat Finding: No.

Recommendation: We recommend the District to verify that all afterschool program personnel are aware of document retention requirements related to pupil attendance and continue enforcing its early release policy by communicating with parents the importance of documenting the reason for early release. Also, prior to submission of attendance information to the State, the District should ensure the monthly summaries agree to the attendance detail reports. An individual from the District should review and re-compute monthly attendance numbers per school site to verify that accurate information is being sent to the State for reporting. Also, the District should develop a process to ensure LEA contributed cash or in-kind local funds supporting documentation are filed properly.

Corrective Action Plan and Views of Responsible Officials: Going forward the department over sees the after-school programs will work to ensure all staff and contractor is aware of the document retention polices in place and is effectively communicating the need for the early release forms as well as enforcing the requirement for documenting the reason for early release with parents. Monthly attendance verification processes will be systematically enforced, with assigned responsibility for accuracy.

CONEJO VALLEY UNIFIED SCHOOL DISTRICT STATUS OF PRIOR FISCAL YEAR'S FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2024

SECTION II – FINANCIAL STATEMENT FINDINGS

There were no prior year findings on financial statements.

SECTION III – FEDERAL AWARD FINDINGS

There were no prior year findings on federal awards.

SECTION IV – STATE AWARD FINDINGS

There were no prior year findings on state awards.
